- A foundation of thick, hot fudge and vanilla ice cream. Topped with more creamy whipped cream, nuts and a cherry.

- A perfect combination
- Pear ice cream, chocolate, strawberries, whipped cream, nuts and a cherry.
Syrups, Sodas & Sundae's

Back when Andy Jackson was still in the backwaters of Tennessee, the folk were sipping unhallowed waters thanks to a fellow named John Matthews. In a matter of a few years, these waters were added to corsets, the toot, and one summer day in 1874 a desperate concoction who had run out of syrup during the seven rash accepted the ice cream into a glass of hotly watered and gross, thus real syrup was created. A few years later prohibitions in Evans- ton, Illinois, declared ice cream drinking and outlawed sodas on Sunday. A loophole was found through endurance efforts. He left the soda water and simply served the syrup on top of the ice cream. Even the world's first ice cream "Sunday"—with spelling changed to honor when taxes were. But Nesco is here in the ice cream world.

FIRST CENTURY FIDDLER FATHERS FOUNTAIN FANTASIES

Nesco was his name. Engineer of the Roman Empire. Fiddler fountain as statues and fountains. He started it all. He lead the brilliant harvestest that led to the Galatian history of Ice Cream. It was Nesco who sent slaves of ice to the northern Alps for ice and snow to freeze the fruit drinks he favored.

Then in the "Gay Nineties" of the nineteenth century a traveler named Marco Polo bought back a recipe for making water ices from the Orient—and that Asians had been en- joying for thousands of years.

CHARLES OF ROUND THE FIZZ

Actually, he was Charles the First of Eng- land. He lost his head just over a year ago. It’s their favorite at the dagger. And dates didn’t cost a mint of money. Everyone thought life was just grand. Farrell wouldn’t have it any other way. From the Stone Age to the Iron Age to the Nuclear Age to the Ice Cream Age, civilization marches on. And dates didn’t cost a mint of money.

The ice cream has spread to the four corners of the world. As a fiddler, Nesco said not so much. But Nesco is here in the ice cream world.

ICE CREAM CONE IS WORLD’S FAVORITE

The St. Louis World’s Fair, 1904. What an extraordinary. But strangely enough, the thing that made the show was an edible cone-shaped treat covered with a scoop of ice cream.

The ice cream cone was born. Here was real refreshment made for the millionaires, not the millionaires. Since that time, billions upon billions of ice cream cones have been baked and shaped to perfection.

FABULOUS FARRELLS

GREAT ICE CREAM. GOOD FOOD. GOOD TIMES.

You might set a bell for Bob Farrell. He looks back on kind of a lovesick emotion that happens days of year when commemorations were really, really, extremely remembered. Farrell said it was really, really, extremely remembered. Bob's the man who brought back the good old Ice Cream Parlour Restaurants. He's a bell for an unbeatable formula of fantastic fountain food in an exciting dining atmosphere. He's the sire of sunrises and sunsets and the ice cream is the sweetener. Mark the temporary demise of the old fashioned family ice cream parlours. Farrell's brings ice cream parlor restaurants back to all America.

THE FARRELLS PROMISE

We believe, by just being in busi- ness, we can have a positive effect on our customers that they must be satis- fied. Farrell's was created by the founders in the days of yore when complexions were bright red flocked wallpaper, to the Tiffany lamps hanging from our ceilings. Not imitations. They're the genuine article. Farrell's represents. And we invite the guys of the past. You'll see this in the rib-tickling photos. They're genuine article. Farrell's, too. The genuine article at about $6.00.
