SLO					
SLO					

To complete this document: Indicate the SLO you will assess during this 3-year assessment cycle and the semester/s you are planning to conduct each assessment step. Further description of each step is outlined below:

Plan

Indicate the semester and year that you will develop your assessment plan for each of your program's SLO. Each plan should include a timeline of when you will collect your data, analyze your results, and develop your next steps. If there are next steps planned, also plan for when the next steps will be implemented and assessed.

Collect Data

Indicate the semester and year that you plan to collect your data based on your plan.

Analyze Results & Develop Next Steps

Indicate the semester and year that you plan to analyze the results based on the data you previously collected. Consequently, you will also develop your next steps based on these results.

Implement Changes/Next Steps

Indicate the semester and year that you plan to implement the changes indicated on your *next steps*. This may range from celebrating your success (if you met your expected outcome and no changes needed) or any program or assessment changes based on your analysis. This is the semester or year following your *analyze results & develop next steps*. This step "closes" the loop!

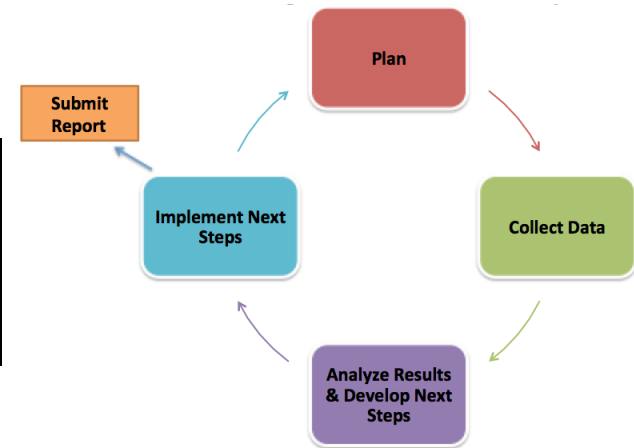

Submit Report

Please refer to the date your program has indicated as the year of reporting on the Counseling SLO Reporting Schedule.

After the changes/next steps have been implemented, the cycle starts again with planning.
