Distance education tip of the week - eLearning storyboard template

Reflection and revision are important in creating a quality product. When taking time to reflect on your teaching and creating new online educational experiences, consider using an eLearning storyboard template to plan key takeaways, activities, and learning goals. This tool can help organize your thoughts and ease into the production phase. Many sites offer free templates like the one found here: <http://go.hawaii.edu/15> For more information, visit the new [Distance Learning microsite](#) featuring distance education information for faculty and students, or email uhwode@hawaii.edu.
