It's National Safety Month - Here's the second weekly installment of safety tips from EHSO

National Safety Month is in full gear and this week the UH West O'ahu's Environmental Health and Safety Office is focusing on Wellness. From the moment we wake up, to the moment we go to bed, our bodies take a toll from everyday stresses. This week take some time and make your well-being a priority. The flyer (attached below) has a few tips that can be used at work and at home.

Kualaka'i Parkway lane closure continues

Work on the Keonea‘a (UH West O‘ahu) rail station will result in the continued closure of the left, makai-bound lane on Kualaka‘i Parkway, according to Nan Inc., the station contractor. Two through lanes will remain open.

More campus parking is on the way, but be careful of construction

On June 12, 2018, the parking lot expansion project contractor, Close Construction, began the preparation of the construction site at the west end of the student/visitor parking lot. While the contractor will be very careful in scheduling their activities to minimize impacts to the campus, please be aware of the ever-changing physical environment during this time. Please be cognizant of barricades placed by the contractor on roadways and locations during the project, as they identify areas of construction activity or material staging. Your continued patience, cooperation, and understanding is appreciated. Our primary concern is for your health and safety.

Please respect all construction barricades and all posted safety signs and be aware of heavy equipment that will be in transit and working at the project site. Your patience, cooperation and understanding are appreciated. If there are any questions or concerns, please contact UHWO EHSO at 689-2529 or at uhwoehso@hawaii.edu.

Distance Learning Tip of the Week

If you find yourself creating a similar type of file over and over again, it might be helpful to create a template. Templates can help you save time and be more consistent. If you are using Google Docs, Sheets, Slides, or Forms, you can access and create templates to improve your workflow. Within the Google Apps, you can access the Template Gallery, which contains ready-made templates. There is also the option to create your own. You can find detail instructions here: goo.gl/bah3c7. If you are interested in learning more about using other online tools, consider attending one of our weekly workshops. You can find more information about workshops and read other tech tips by visiting uhwo.hawaii.edu/distancelearning or emailing uhwode@hawaii.edu.
