Distance education tip of the week - Lailima tools

There are many Lailima communication tools. "Mailtool" allows you to contact all site members through UH mail. "Discussion" and "Private Messages" allows for group conversations as well as direct communication. The "Forums" tool offers open discussion areas for online interaction while "Messages" permits you to send messages privately to other members. Multiple options make it convenient to connect, but can be overwhelming for you and your students. Choose one tool for communication and one tool for discussion activities to create a clear and organized online classroom. For more educational tech tips, visit the UHWO Distance Education Lailima site or email uhwode@hawaii.edu.
