

Campus Scorecards – Overall

Campus Scorecards summarize key success measures, including number of degrees and certificates earned, graduation rates, transfer rates and credits-to-degree. Additionally, leading indicators of success, such as taking 6 or more credits before beginning college, taking 30 credits in the first year, completing college level English and math in the first year are included. The scorecards provide campuses with indicators that show improvements over three years by their overall student population and their under-represented minorities.
