moana-fallback_fde4d101.jpeg

The Creative Media program at the University of Hawai‘i-West O‘ahu will manage the production of a Hawaiian-language version of the hit-movie *Moana*, collaborating with faculty from other UH System campuses for what is hoped to be a Hawaiian language education tool.

UHWO’s Heather Giugni, collections specialist and producer for ‘Ulu‘ulu, Hawai‘i’s moving image archive, and Sharla Hanaoka, director of Creative Media at UHWO, are producers of the Hawaiian language-version of

Moana, in cooperation with Rick Dempsey, SVP Creative, for Disney Character Voices International. It is anticipated the finished product will be distributed via the Hawai‘i Department of Education to schools across the state. The production will feature Native Hawaiian actress Auli‘i Cravalho, who will reprise her role as the titular character. News of the project was released last week, with UH West O‘ahu distributing an English-language press release version, and for the first time, a Hawaiian-language version. Casting runs through Nov. 17 - check out http://acmsystem.hawaii.edu/ for more information.

UH West O‘ahu strategic planning is moving forward

UH West O‘ahu’s Strategic Action Planning Committee is moving from conceptualization to concrete planning, according to Chancellor Maenette Benham. She met with the committee last month to review work that had been done and access the current status while discussing next steps. A recording of the Chancellor’s presentation is available on the Long Range Planning microsite: https://www.uhwo.hawaii.edu/longrangeplanning/ Benham notes there will be more effort by working groups this month to more definitively map key priorities around Academic Programs, Student Success and Enrollment Management, Land and Facilities Development and for support plans to include a budget model. If you’d like to participate please contact Terri Ota, tota@hawaii.edu. If you’d like to know more check out the Strategic Planning website - the link is provided above.

Distance Learning tip of the week

If your teaching involves referring to websites, you may want to consider using a bookmark tool. You may already be managing your bookmarks in your browser toolbar, but there are other options. For example, Pinterest.com is an image based social network that many people use to share ideas. This system allows users to create virtual board or collections of pinned (book marked) site or ideas. As an educator you can create collections and share them with your students of even have your students collaborate on boards. If you are interested in learning more about using other online tools, consider attending one of our weekly workshops. You can find more information about workshops and read other tech tips by visiting uhwo.hawaii.edu/distancelearning or emailing uhwode@hawaii.edu.
