Lawyer Wins Diploma For Boy

Police Resignations Average 5 Per Month; Reasons Vary

By STAFF WRITER

Anong them have been old-timers like Sgts. H. C. Ching and William Perry, investigators like Detective Michael Byrne, and some who are relatively new-

Why?

It's only because the policemen are finding jobs, some at Pearl Harbor, which pay better than their jobs on the force, says the administration, and there are a number of cases where that motivation seems obvious. As for Detective Byrne, he quit to go back to college.

But there are some who say

But there are some who say resignations are prompted by "the juvenile minds of some of the executives" which make service difficult for subordinates: "They're mature in years," an officer told the RECORD, "but they're juvenile in their thinking just the same. Sometimes they can be just plain insulting." Various of Chief Livis subordinates.

Various of Chief Liu's subordinates are said to have their eyes on promotions and, since the only important promotions pos-sible for some would mean replacing the chief himself, it is felt by some officers that they may have ambitions toward succeeding Liu. Among those men-tioned are Deputy Chief George Farr, Assistant Chief Dewey Mookini and Captain Alfred Harper. At least two of the trio would be eligible for retirement, and there are policemen who feel the department would be well served if they were retired.

is a moot question, how-(more on page 7)

Birdseye Diapers Cheaper At Jemal's **But Not the Same**

When a young Honolulu mother saw what she thought was a bar-gain—Birdseye diapers at a dollar less than the usual price per doz-en—she noted the name of the store carefully. Later, she went to the store, Norman Jemal, Ltd., but was told that the diapers were temporarily sold out. If she wished to place an order, her deposit would accepted.

The young woman made a de-posit and got her receipt. The store would call her by telephone when the diapers arrived, the saleslady told her.

A couple of weeks later, having received no call, the young woman called, herself, and was told that the diapers had a rived.

She went to the store again and brought away four dozen diapers, done up in a large package.

When she unwrapped the pack-

Aiea C&H Workers Get 59 Cents Less Than **C&H** Coast Employes

The Hawaiian sugar plantations which make their profits by the sweat of the brows of the workers here show "disgusting contempt" for their employes a Filipino factory worker at Alea told the RECORD this week.

The California and Hawaiian Sugar Refining Corporation, Ltd., and Hawaiian owned by Hawaiian plantations, pays 59 cents an hour less to its employes at the Aiea refinery than it pays employes at the firm's plant at Crockett, Calif., the worker explained.

Strong Union Needed

"Why do we get less?" he asked.
"We need a stronger union here,
then the differential would be climinated by our demanding equal treatment by the same bosses."

The ILWU United Sugar Workers, Oahu Division, recently distributed an information bulletin to Aiea workers which pointed out

merto Barut, threw a 4x4 piece of lumber from the eighth story that hit him (Filos) smack on the head. Followed Superior's Orders

Earut, when questioned later, ex-plained that he saw Filos after he had let go of the piece of lumber, too late to warn the latter.

And Barut made a statement which would have been shocking if the people of the Territory were conscious of the negligence

and utter disregard of industrial safety regulations by employers. Barut told investigators that he Barut told investigators that he was following instructions of his superiors of the Hawaiian Dredging Co., in clearing the lumber scraps from the eighth floor by dropping them to the ground. ground.

Established national practice for contractors is that scrap pieces must be bundled and lowered (more on page 7)

Freddy Dawson Rejected Invitation To Brown Derby; Mgr. Rudolph Was Barred

Freddy Dawson wouldn't go into the Brown Derby because of the racist policy it maintains spasmodically.

The top-notch lightweight boxer, foremost contender for the world's championship, who visited Honolulu two weeks ago to take a decision from Frankie Fernandez, was invited, but he turned the invitation down. If he were not a well-known boxer, he told friends, he would not be invited into the night club which has often barred Negroes, so he would not accept the in-vitation under such circumstances.

His manager, Harry Rudolph, did go on a visit prompted by curiosity and he was turned away

at the door.
Thomas "Pittsburgh" Lampley, local boxing trainer and manager.

who accompanied Rudolph, tells what happened.

Asked for Passes

what happened.

Asked for Passes

"A girl stopped us at the door," says Lampley, "and asked to see our passes. When we said we were civilians, she told us we couldn't be admitted."

Lampley said he asked to see owner Sartain, whom he has met, and was told Sartain is on the Mainland. The girl protested that, the barring of the two wasn't her idea, but only the orders of "the boss."

Mr. Rudolph, Dawson's manager, told the girl he has travelled in a number of countries, including Australia, England and several in South America, and he has not been refused entry into the best hotels and places of entertainment available. available

Lampley asked why Negro serv-(more on page 7)

Coast Guard, Eskovitz Callous To NMU Man Screened Off Here With Only \$30

When the USS Kennebago left a West Coast port, bound for Hawali and the Persian Gulf, Alexander Silverman was a seaman on her, in good standing with his government, his union, and the U. S. Coast Guard, which regulates merchant shipping.

But after his ship had docked at Pearl Harbor, civilian guards arrested him, told him he was to be taken off as "subversive" on order of the Coast Guard. The National Maritime Union, of National Maritime Union, of which he is a member, through its local agent Rudy Eskovitz, shrugged off his plea for aid and cynically directed him to the Public Welfare Department.

"I don't know what I'm ac-cused of," the dazed seaman told

the RECORD, "and I've been told by the Coast Guard I can't have an appeal because there is no appeal board."

With only \$30 he earned coming from the coast, barred from the occupation he has followed for 10 years, Silverman faced a long, hard period on the beach last Thursday. Then acquaintances he Thursday. Then acquaintances he has met here through other unions, loaned him cnough for passage back to his home in Los Angeles and he left on a plane last Friday.

"They really put me off here

in a hard circumstance." Silver-man said. "I don't know what I'd have done if I hadn't got help."

The events that occurred to Silverman tell much of the story of the present-day screening sys-(more on page 7)

Senator Butler Is for **Johnson Peace Resolution**

WASHINGTON (FP)-Support for the resolution of Sen. Edwin C. Johnson (D., Colo.) calling for a cease-fire in Korea, took on a broader bipartisan aspect June 6 as Sen. John M. Butler (R., Md.) lined up in favor of the plan.

In a letter to the Maryland Committee for Peace, Butler said: "Certainly I favor the Johnson or any other resolution that will bring about an honorable peace."

BUTLER IS the man who defeated Millard E. Tydings (D.) in the sensational senatorial campaign last fall, marked by red smear attacks engineered, according to testimony before a Senate investigating committee, by Sen. Joseph R. McCarthy (R., Wis.). Backers of the Johnson resolution said Butler's indorsement indicates the broad character of the desire for peace. Scores of church, civic and labor groups have pledged support to Johnson.

Despite the growing support, the administration was standing pat on its terms for settlement. Secretary of State Dean Acheson told the MacArthur investigating committees that the U. S. will fight any attempt to seat Communist China in the United Nations, if necessary by appealing to the World Court. At a meeting in the State Department, representatives of 16 nations with troops in Korea were persuaded to postpone any statement of war aims which might pave the way for peace.

Small Businessmen Complain **Price War Aimed At Them**

NEW YORK (FP)-The price war touched off by leading New York department stores moved out of the bargain basements into an inquiry room June 7 as a number of small businessmen complained the price-slashing contest would drive them to ruin and leave the big stores without competition.

BUSINESS had slackened considerably June 7. In contrast to the bargain-hunters who mobbed the big stores earlier in the week and bought up every standard brand item in sight, crowds were back close to normal and much more selective in their buying.

The one-day inquiry, conducted by the state Joint Legislative Committee on Unfair Trade Practices, saw most of the witnesses directing their anger at Macy's, largest department store in the world. In the wake of a U. S. Supreme Court decision upsetting the fair trade act, Macy's announced 6 per cent cuts on a host of standard brand items and said it would continue to undersell any competitor by 6 per cent. The price-cutting contest followed.

Angriest witness of all before the state probers was Executive Vice President Louis F. Broido of Gimbel's, chief competitor of Macy's. He said Macy's had made "suck-ers out of the public" with "misleading advertising."

"The plain fact is that nobody can undersell everybody on everything all the time," he said. "This is a lot of nonsense."

MACY'S HAD CUT prices on "only a few" of the "hundreds of thousands of items" on the market, he said. As evidence Broido brand'shed before the legislators two purple-flowered bathing suits, two pink

Hi-Lites of the Week

girdles and some blue and red satin bedroom slippers. These, he said, had been bought at Macy's during the price war at exactly the same fair-trade prices posted in other stores.

Broido's final warning to the legislators was: "If we don't protect the middle class business, the country will wind up with a few big monopolies and 150 million proletarian workers.'

The same view, and warnings of a wave of bankruptcies, came from other witnesses, most of them small businessmen and attorneys for associations of small business-

THE PRICE WAR was described as a "sham" by Executive Secretary Arthur Schutzer of the American Labor Party, who demanded a "real price war" against "big business price gouging."

Schutzer outlined a program calling for federal and state price rollbacks to June 26, 1950 levels, government subsidies to family farms and enactment of an emergency price control law by the legislature. He also proposed that the legislative committee send a recommendation to Congress for enactment of effective price controls.

Two representatives of Macy's sat through the day-long hearing taking notes, but did not speak.

There was no indication that the pricecutting wave would engulf food items. Spokesmen for two nationwide food chains told the Wall Street Journal June 8 they had no intention of getting into the price

Green Exposes Sneak Attack On Tax Structure

WASHINGTON (FP)-In a letter to all state federations, AFL President William Green exposed an attempt by big business lobbyists to shift even more of the tax burden on small income groups. He called for

MR GREEN

action in every state to defeat the drive. THE CAMPAIGN, sponsored by the American Taxpayers' Association of Wash-

ington, is directed at repealing the income tax amendment to the U.S. Constitution and replacing it with an amendment which would limit all U.S. taxes to 25%.

"Not only would income taxes be affected." Green wrote, "but gift and inheritance taxes as well would be limited to 25%."

The drive already has resulted in favorable action by 24 states, Green warned, Only 36 are required to call a constitutional convention and put through the gigantic

"IF THIS substitute amendment to the Constitution is adopted," Green continued, "it can only mean that a national sales tax is on the way in and the burden of taxation will be shifted to an even greater disproportionate basis onto the backs of those who will be least able to pay and who are now bearing the greatest share of the taxes."

The amendment was recently adopted in Florida and defeated in Ohio. Green urged all federations to fight against adoption in states where no action has been taken and to demand reconsideration where approval has been voted.

French Left-Wing Union **Enrolls Most Members**

PARIS (ALN)-The General Federation of Labor (CGT), largest labor federation in France, won an impressive victory, in the 1951 representation election at the Paris area plants of the nationalized Renault works, largest factory in France. Out of 27,678 votes cast for personnel representatives, the CGT list won 75 per cent. Following in order were the independent Renault union with 11 per cent, the Catholic CFTC with 9½ per cent and the Force Ouvriere (supported by the CIO and the AFL) with 4½ per cent.

Since the election a year earlier all groups gained votes with the exception of the FO. Similar results were noted in the election at the Michelin tire plant in Clermont-Ferrand where the CGT scored another smashing victory.

The CGT has more than 3,600,000 mem-

bers who have already taken out union cards for the current year. It has enrolled 80 per cent of all union members in France,

Buying Power Drops 69 Per Cent In Japan

TOKYO (ALN)-Living conditions of the Japanese people are continuing to decline sharply as the result of soaring prices and falling wages. According to the Japanese Chamber of Economic Stabilization, prices in Japan up to March 10 had increased 62 per cent since last June when the war in Korea broke out. Government statistics showed workers' consumption of goods in January 1951 fell to 69 per cent of

German War Criminals Hanged for Mass Deaths

LANDSBERG (ALN)-After a 4-year fight to stave off justice, seven German war criminals were hanged here by the U. S. Army June 7 for the murder of hundreds of thousands of civilians during World

NAME

War II. They went to their death after the U.S. Supreme Court rejected the last of a long series of appeals. Three generals, two colonels and two junior officers of Hitler's notorious SS (Elite Guard) were those hanged. Their collective crimes included destruction of the Warsaw ghetto, the slaughter of 90,000 civilians in the Soviet Union, the massacre of 60,000, including 33,000 Jews in a 2-day bloodbath at Kiev. a massacre of "racial undesirables" in the Crimea and supervision of the murder and torture machines at Buchenwald and Dachau concentration camps.

Layoffs Mount In Auto Plants Except Chrysler

DETROIT (FP)-Layoffs in Detroit and Michigan auto plants are mounting except in Chrysler Corp. shops. Hudson laid off 10,000, frankly saying that sales were not keeping up with production. Kaiser-Frazer was piling up new cars in the open fields. Nash, Studebaker in Indiana, and Packard were slowing down their daily output.

IN THE BIG General Motors center at Flint, layoffs have been the order of the day, but there was hope that they would end, particularly at Buick.

Automotive writers professed to see fading sales demands in the fact that the customary reports of sales every ten days in the industry have suddenly stopped.

"Higher Duty" Than Academic Freedom

SACRAMENTO, Calif. (FP)--"We believe teachers have a higher duty than to preserve the tender carcass of academic freedom. We believe teachers who refuse to take a simple, clear-cut non-Communist oath should be denied credentials as lobbyists on the basis that they are not of good moral character."

WITH THESE words, Richard E. Combs, counsel for the California Senate un-American activities committee, at least temporarily blocked the application for credentials by Herbert Bisno, Morton Elkins and Eason Monroe, all teachers fired from San Francisco State College for refusing to sign the state loyalty oath. The three came here as representatives of the Federation for the Repeal of the Levering Act, which requires signing of the oath.

Both Combs and Sen. Hugh Burns. chairman of the committee, acknowledged they had no record of any connection of the three teachers with Communist organizations.

The three teachers were ordered to appear for a special hearing before decision would be made on their credentials.

MEANWHILE, the University of California board of regents has voted 11 to 10 to reinstate the 18 faculty members who were fired for refusing to sign the board's loyalty oath. The regents also voted to withdraw their appeal from the California supreme court against a decision ruling their oath requirement unconstitutional.

Another civil rights victory was scored in Sacramento when the Assembly judiciary committee buried a Senate measure introduced by Burns, which would have required a non-Communist oath for lawyers and imprisonment for any lawyer who signed it fraudulently.

15-Cent Increase For Dockers Gets Approval of WSB

The 10-cent raise from last February for Hawaii longshoremen, plus another five cents July I, has been approved by the wage sta-bilization board, waterfront em-ployers announced here Wednes-day

Union officials, who had not participated in the radiophone conversations with Washington, declined to comment until they have been notified officially of the WSB decision.

The 10-cent increase from February 1 was agreed upon long ago but it has not been paid by em-ployers pending the decision of the WSB.

The longshore agreement would award stevedores another fivecent raise in January if no pension plan is agreed upon, but there was nothing in the information received to indicate that the WSB has ruled on that increase.

Decision Unanimous

Employers told the local dailies the Washington special panel which considered the Hawaii longshore agreement had acted unani-mously. For that reason, it was reported, the matter need not be taken up by the full board.

The board did not take action on the proposed pension plan, it was reported, because it had not yet formulated a policy on pen-

Although the agreement be-tween Hawaii's longshoremen is voided if the WSB disapproves of any part of it, an employer

spekesman said the board's de-ferment does not indicate dis-

The action of the WSB, if ac-The action of the WSB, if accepted by the union, would raise the longshore base pay as of last February, from \$1.61 to \$1.71 per hour, and the increase would affect approximately 1,800 longshoremen in the Territory's ports.

AGRICULTURAL STRIKE

EL CENTRO, Calif. (FP)-A \$33 million crop was left untouched in the Imperial Valley as an estimated 6.000 members of the National Farm Labor Union (AFL) remained on strike in the biggest agricultural walkout in labor his-

University News Briefs

Six hundred ninety-eight received degrees at the University of Hawaii Wednesday. Six hundred forty-six earned undergraduate degrees while fifty-one received mas-ters degrees and one, doctor of philosophy. Harry Zeiplin, who received his doctorate in chemistry, won his BA at Harvard and his masters at the local univer-

IN ADDITION to the 698, 142 completed their fifth-year work Of this number, 119 received diplomas and 23 received social work

MRS. TRUDE AKAU, mother of six children, who was a delegate to the Constitutional Convention, received her masters degree in edu-cation. Everyone recognized this notable achievement. oldest child is 13 years old and her youngest, six years. Besides her household duties, she is active in household duties, she is active in community functions and does substitute teaching besides. George H. Akau, chief of the Territorial bureau of pure food and drugs, is given credit by Mrs. Akau for making it possible for her to pursue higher education. Mr. Akau is a local university alumnus.

SPEAKING of loyalty oaths and loyalty, several students at the lo-cal university reportedly were very much upset, disgusted and con-cerned when they heard Dr. Paul Bachman, dean of faculty, make disparaging statements about Dr. Linus Pauling. They asked the eminent chemist when he arrived here, if the allegations were true and told him what they had heard Dr. Bachman say.

The University of California chemist confronted Dr. Bachman in order to get the facts straight Dr. Bachman denied he had said to a group of students, what he was alleged to have said about Dr. Pauling. Reliable sources say that the students had plenty to back up their position and that they had not misunderstood Dean Bach

chemist here to dedicate the new chemistry building, then somer-saulted to cancel the warm and cordial invitation because someone had told him that Dr. Pauling was associated with some of the attorney general's "subversive" organ-

In Honolulu, President Sinclair avoided Dr. Pauling. But when the latter left for the Mainland, who but President Sinclair was out at the airport, prepared to ride the same plane to the West Coast. What sort of a coincidence was this?

THE IRONY OF IT ALL!

DURING his visit here. Dr. Pauling appeared before the board of governors of the university alumni association. He told them that he had come here to correct any wrong impression left by the board of regents' cancellation of the invitation to him to dedicate the chemistry huilding. He said he the invitation to mm to dedicate the chemistry building. He said he felt it his duty to do this. He commented that he met many people who were friendly and for whom he has high respect.

THE LOCAL dailies which front-paged stories when the Pauling invitation was cancelled, gave him poor press coverage. But the lo-cal scientists, students and interested members of the public at-tended his lectures and accorded him the respect due a scientist of his stature. The large attendance at Agee Hall. HSPA experiment

lecture to the American Chemistry Society, Hawaii section, is a good example.

THE UNIVERSITY alumni organization, various campus sources say, did not get into the Pauling-

His Lectures Appreciated

PRES. SINCLAIR Avoided Pauling but . .

regents controversy because some of its officers felt the group is weak and getting involved in the fight might do damage to the organization.

NUMEROUS influential alumni feel, however, that the board of regents acted too hastily. Some pointedly remark that the regents did not give mature thought to the question as is expected of mature persons. One said: "They acted like politicians."

IN THIS Territory, where government by appointment rather than by the ballot predominates. than by the ballot predominates, the only highest institution of learning goes along with the principle of appointment. A good example is the selection of the board of regents. On the Mainland there are universities whose board of regents is made up of both appointed and elected members. The alumni elect a certain persenter of the regents from their centage of the regents from their membership. And in almost all universities, the alumni are board of regents members. Locally all three members of the regents from Oahu are not alumni. This means that alumni members on Oahu are not represented on the important, policy-making board.

BOSS MEDDLING CURBED

WASHINGTON (FP)-Belief by an employer that a labor union is communist-dominated is no legal reason for him to interfere with its functions, the NLRB re-

SENATOR'S PROPOSAL FOR PEACE IN KOREA

Following is the text of a resolution introduced in the United States Senate May 17 by Sen. Edwin Johnson, Democrat, of Colorado. His proposal that a cease-fire and armistice at the 38th parallel in Korea be declared on June 25, first anniversary of the conflict's origin, has attracted considerable attention abroad and was coincidental with similar soundings in the United Nations by the delegation from India, Numerous trade unions, including CIO States Senate May 17 by Sen trade unions, including CIO unions producing war materials in the U. S., are supporting his resolution. The text:

resolution. The text:
Whereas, to permit civilization to be destroyed by World War III is utter insanity and unworthy of the men of this century; and

Whereas, the Korean war has every appearance of being a hopeless conflict of attrition and

hopeless conflict of attrition and indecisiveness and a breeder of bitter racial hatreds; and Whereas, a limited war like a limited or smoldering fire, is gravely dangerous, for it may burst forth into a worldwide conflagration at any moment; and

Whereas, the North and South Koreans, the Chinese and the

United Nations have suffered more than 1,000,000 casualties. with the only tangible result so far the indescribable misery which has been heaped upon the Korean people; and

Whereas, tramendous strides have been made in the develop-ment of hitherto unused lethal and destructive weapons of war with potentials of unbelieveable fury and horror; and

Whereas, by slaughtering additional millions of humans are humans an uneasy peace might in time be forced upon the vanquished;

Whereas, the people of the United States traditionally have held the people of China in the highest esteem and affection and still do; and

Whereas, the people of the United States have long recog-nized the wisdom of the princinized the wisdom of the princi-ples of the Monroe Doctrine so eloquently portrayed by the slogan "Asia for Asiatics" if it were to be applied to Asia; and Whereas, it has long been the

policy of the American people that no nation should seek to ex-tend its form of government over any other nation or people, but that as an inherent right every

people should be left free to determine its own form of government and its own way of life, unhindered, unthreatened, unafraid-the little along with the

great and the powerful; and
Whereas, the traditional policy and desire of the people of the United States of is now and has been a just and enduring peace; and

Whereas, it is never too early for God-fearing and peace-loving peoples to stop needless hu-man slaughter; Now, therefore,

Resolved, That it is the sense of the Senate that the United Nations call upon all groups now in the war in Korea to cease fire and declare an armistice effective at 4 a.m. (Korean time) June 25, 1951; and that prior thereto the United Nations forces retire to points south and the op-posing forces to points north of the 38th parallel; and that be-fore December 31, 1951, all pris-oners of the Korean war be ex-changed and all non-Korean persons, military and non-military (except the ordinary diplomatic representatives), shall depart from North and South Ko-

In Expert's Visit

By STAFF WRITER

Some time ago an Advertiser Some time ago an Advertiser reader entered the newspaper's library to try to locate a certain back issue of the paper: A thorough search failed to locate the edition the reader sought and after a similar search in the microfilm files, the librarian had to confess the edition just isn't around

"It's that efficiency expert," an Advertiser employe said. "He's thrown it away along with all the other papers. Some of those papers were valuable— almost a hundred years old. Efficiency, hah!"

The library's reaction reflected a little of the impact Robert J. Eustace, Mainland efficiency expert, made on the Advertiser in the six weeks of his tour of duty here, which ended two weeks ago when he left on the Lurline.

No Hiding Place

Private nooks and crannies all employes have reported, so that it's no longer possible to hide out and take life easy for a few moments. The bosses can see everywhere now, it's reported.

Personnel changes during re-Personner changes during re-cent weeks have been interpreted by some employes as also reflect-ing Eustace's findings.

Doyle Cites "Policy"

When John Doyle of the advertising department resigned recently after 21 years on the pa-per, there were those who said he was a victim of Eustace's axe. Doyle denies that.

"It's been brewing for a long time," he told the RECORD, speaking of his resignation. "It's over policy."

Another change came in the

circulation department, report has it, after Eustace decided the pa-per's circulation was too small to warrant an assistant circulation manager.

One question which employes say worried Eustace, and which he tried very hard to answer, was —why don't people buy the Advertiser? Rumor has it he even went out to sell the paper, himjust to get a few comments.

His answers, whatever they are, are probably buried deep in one of the big bosses files that escaped Eustace's sweep.
"I never knew it to fail," com-

mented a man who has seen efficiency experts come and go at Hawaiian Pine and other local

Heads Fall, Nooks Old Inequitable Cesspool Draining Vanish At 'Tiser Charge Backed Only By Usage Since '31

Since as early as 1931, the people of rural Oahu have been paying at least one type of fee for gov-ernment service that is not charged residents of Honolulu. That is the charge for draining cesspools of residences which, according to Llewellyn Hart, head of the di Hart, head of the division of refuse disposal, runs from \$15 to as much as \$30 for each draining.

"This charge relates to cess-pools where only liquid is drained," said Mr. Hart. "If there is sludge and muck which must be handled, the charge is

Hart is talking only about noncommercial cesspools, he says. Those maintained by business enterprises must be paid for, too, without exception, even in Honolulu.

There is no authority for this practice of charging, Hart says,

practice of charging, Hart says, except usage,
"They were doing it that way when I came in," he says, "and I just kept on doing it that way. The city destroyed some records once, and I think they must have destroyed the record in that case. I think it's about time the board looked into the situation and gave

us a new ordinance."

Another Inequity

One charge, upon which Hart is not prepared to give an opinion, is that required of landlords for is that required of landlords for garbage collection while residen-tial home owners escape without charge. It's backed up by Or-dinance 916, says Hart, and no matter what he thinks of it, he has the duty of executing it. The theory behind the ordi-

Three Million Civilian Casualties In Korea

WASHINGTON (FP)—Dr. You Chan Yang, new South Korean ambassador to Washington, told President Truman there had been President Truman there had been nearly three million civilian casualties in his country since the war started last June. This is in actition to 170,000 casualties among South Korean troops, he

"The Korean loss in property. in human sacrifice, not counting battle casualties, cannot be com-pared with any country and any pared with any country and any war in the history of the world," Yang told reporters.

establishments. "When they start making the big brass more effi-cient, their programs come to an

nance, Mr. Hart told the REC-ORD this week, was that rented property is actually a business and therefore, the man making profit from the business should pay for its 'appurtenances,

"Of course," Hart said, "we know some landlords figured it into the rent if they could un-der their rent ceiling."

It was further pointed out that, since the division of refuse dis-posal operates at a loss, the man who rents property must help pay for the system twice, since taxes which he contributes, must make up the deficit.

Nunes Back In Prison, **Cannot Have Visitors**

Manuel Nunes, 26, Oahu Prison convict whose heels and back were broken when he fell from a prison construction job late in May, has been taken from Queen's Hospital back to prison. (See RECORD May 31).

His wife Mrs. Bernice Nunes. says prison officials have informed her she will not be able to visit him until he's able to walk. That, according to the opinion of doctors who treated him at Queen's will be in about a year.

"I heard that when they took him from the hospital," Mrs. Nunes told the RECORD, "his back was in a plaster cast. I think his back has been cracked in two places—not just one."

Nunes' accident occurred when he slipped on iron roofing while working on the construction of a working on the construction of a hobby shop. Since his accident, the RECORD learned, prisoners working on the job have been provided with safety ropes by the maintenance superintendent, Joe

Mrs. Nunes is at a loss to know why her husband has been removed from Queen's, for doctors told him, she says, that he would remain there for treatment until he is able to walk.

Those familiar with prison routine were of the opinion that Nunes' return to the prison may have been inspired by somethin of a political nature rather the official necessity since it is viously improbable any miseriously injured could effe

Mrș. Nunes and her fiv dren are presently stayin relatives in Palolo.

BOOK REVIEW

Tasaki Answers Many Questions About Japanese Army In Strong Novel

LONG THE IMPERIAL WAY— Hanama Tasaki, Houghton Mif-flm Co., Boston. \$3.75.

Hitt Co. Boston. \$3.75.
Soldiers who operated in some proximity to the Japanese Imperial Army in China often wondered at the things they saw and heard of Japanese soldiers. They wendered first of all, at the treatment Japanese soldiers gave the ment Japanese soldiers gave the Chinese people—occasionally con-siderate, more often callous, and sometimes brutal,

They wondered about the discipline of the Japanese, too, which could make them into an extreme-

POLITICAL NOTES

THE LEGISLATURE drastically lopped off the University of Hawaii appropriation request to the sum total of nearly a million dollars, and now the university must chop here and there to make adjustments, A cut in the biennium funds to run the Manoa campus and its subsidiaries from \$4,654,162 for 1949-51 to \$3,697.825 for 1951-53 indicates that the solons were heartless when it came to higher education. But one unit at the university received favored treat-ment. A sentence in the budget

"The college of business administration shall offer a four-year course of instruction."

DR. HAROLD ROBERTS, who runs the college of business ad-ministration, is a "politicking pro-fessor," sources on Manoa campus say, "He did not spend weeks at the constitutional convention for "He was a delegate

DR. ROBERTS showed how he plays his politics when 220 university faculty members protested the loyalty oath bills several weeks ago, asking the governor to veto them. He got together with Big Five representatives in the House, reportedly to delete the "objectionable" parts of the bills. The move, no matter what the intentions softened the impact of the pro-tests by Roberts' colleagues. While the smoke of the protests still filled the sinck of the protests still filled the air, students and faculty mem-bers looked hard at the petition to find Roberts' signature. It just wasn't there. Those who had re-garded him as a liberal were said to have been disillusioned.

"PRESIDENT SINCLAIR ought to watch out, for Roberts might step into his shoes," an instructor commented, while discussing the "politicking professor."

"Nay," said a student. "We think he has his eyes fixed on some government job."

ly formidable fighting force at some times, yet ready to commit harakiri at others.

Answers Here

Here, in this work by a Mauihere, in this work by a Mani-born Nisei who served in that army a full hitch in China and another during the Facific War, are more of the answers than this reviewer has ever seen put togeth-er in one book before.

Private Takeo Yamamoto arrives in China fresh from Japan, sold on the idea that he will die for the Emperor and that it is the best possible thing he could do. But he senses skepticism in the older soldiers who, though they subject him to the roughest kind of face-slapping, bullying discip-line, do not agree that it is a good thing to die at all.

Ashamed of Acts
Next, Takeo falls back on thinking of his own family. He tries to tell himself he is fighting for them. But he finds himself and his comrades engaged in burning villages, murdering and otherwise mis-treating "natives," and doing many things he knows his family would never countenance—which, indeed, he feels he will never have the courage to describe to them.

courage to describe to them.

Finally, after more than two
years in China, he comes to the
conclusion that he is not fighting for the Emperor, or for his
family, or really for anybody unless it is the big Japanese companies, the zaibatsu, who are
making huge profits out of the
conquest of China.

Hope his return to Japan his

Upon his return to Japan, he listens to the unctious speech of a government official and recognizes something of the machine that has been used to dupe him and his comrades into fighting the var of imperialism.

Takeo's reaction, the last paragraph in the book, is that of others who have returned from China to hear the speech:

to hear the speech:
"Now Takeo was no longer listening to the speech. He was feeling really sick and felt almost like vomiting. He remembered his former trick and now tried to arouse a mighty anger against the new speaker, too."

There is much more to the book then that. There is such a wealth of detail as to make the story authentic to any soldier who served in any wartime army. There is some good writing and some bad writing, but always there is a stream persenting. strong narrative.

Pertinent Today

Two observations occur to the reviewer. They are:

1. That Tasaki, writing from the viewpoint of a soldier in the canks, never has occasion to introduce a Chinese character strongly enough so that he appears as a person at

all.

2. That the Japanese soldiers made almost no distinction between the Communist guerrillas—whom the Japanese press said they had been sent to clean out—and any other "natives." To them, the Chinese were all "the enemy." enemy.'

The contemporary reader can-not help wondering if the attitude of the American soldier toward Koreans is any different.—E. R.

A & B Store Tactics

It is reported that the Alexander & Baldwin Store on Maui is pulling some fast ones on new employes. Employes are hired employes. Employes are more by the A&B and before their six months are up so that they could join the union, they are fired from the job on such reasons as "that job will be climinated," etc.

Later they will be re-hired as Later they will be re-incut as new hands and will start all over again with no credit for when they were working the first time. It is said that this practice of hiring and firing and re-hiring has been going on for quite some time.

AGRICULTURAL NOTES

The following information is from "1950 Statistics of Diversified Agriculture In Hawaii," a book-let issued by the University of Ha-waii Department of Agricultural

Territorial milk production in Territorial mink production in 1950 was 35.6 million quarts compared with 31.7 million in 1949. The value of milk and dairy products was \$6.8 million compared with \$6.4 million in 1949.

EGG PRODUCTION in the Territory for 1950 was 3.7 million dozens, an increase from the 3.2 dozens of 1949. Lower prices reduced the wholesale value of eggs and poultry meat marketings from \$4.1 million in 1949 to \$3.5 million

Gadabout

BILL PRICE, who has become a painting foreman on the barracks construction job over at Kancobe, gets himself more unpopular by the day, circling to spot any place where cigarette butts indicate a group of men have been sitting around in a circle. That, he reasons, must be where the boys have sons, must be where the boys have been shooting craps or gambling otherwise, so he keeps an eye out to try to spot the games and re-port them. The catch to his con-scientiousness is—he was caught gambling there some time ago.

ALEX SUMIDA'S confessions, if ever published, would certainly be juicy enough reading for the most juicy enough reading for the most avid sensation seeker, but they'd also be somewhat embarrassing to a number of people in prominent places. Talk has it that Sumida can number among his fleecing victims one of the most active politicians who holds an office in the C-C government. According to the tale, the sucker went for the old opium story to the tune of \$10,000. It would be surprising, \$10,000. It would be surprising, though, if Sumida, now doing time in Oahu Prison, were to tell this and the other stories that make his saga. He undoubtedly expects to get out one of these days, regardless of his sentence, and such stories would, be bad for his business.

REP. CLARENCE SEONG of REP. CLARENCE SEONG of Maui (D.) is now partners with Rep. "Kishi" Kishimoto (D.), also of Maui, in a Wailuku bar. The story goes that Seong formerly went into the Club Amigos as a partner with contractor William J. Fujita. But the partnership proved something less than a success because both Seong and Fujita were forever submitting bills cess because both Seong and Fujita were forever submitting bills
for supplies they'd furnished.
Seong had a music store and report is that the music bill was
very high. So was that for construction, repair, etc., that end
being run by Fujita. In the end,
Seong got out and went into the
saloon business. Anyhow, that's
the story the story.

THE PROMOTION of Robert R. Spencer, principal of Roosevelt high school, to deputy superintendent of the business division of the DPI, made an AJA parent remark that no non-haole, local-born teacher is principal of an English standard school. Localborn teachers have gone into these schools, which most of the haole children attend and have haole children attend and have done good work. This shows some progress, but there is a long pull before non-haoles are made prin-cipals of English standard schools

WILSON'S JOHNNY and enemies never know what to expect of him. Last week, when a bit of talk was going the rounds. someone conjectured that the mayor won't be running again and someone else remembered he had told Supervisor Jimmy Trask recently that he hasn't retired

We asked him if he were go-

we asked nim if he were going to run again,
"Got to wait," said the mayor
calmly, "and see if we have any
legs to run with."

PAUL KEPPELER, C-C controller, is in the position present-ly of being a department head ly of being a department head without portfolio. It was felt by many that if he were not appointed and confirmed by last week's board meeting, his status in office would be no longer legal. If that is true, then Keppeler's status is something to question.

> HONOLULU RECORD Published Every Thursday by

Honolulu Record Publishing Company, Ltd.

811 Sheridan St., Honolulu, T. H. Entered as second-class matter May 10, 1949, at the Post Office at Honolulu, Hawaii, under the Act of March 3, 1879.

for Mayor Wilson didn't present his name to the board.

Why not?

The mayor says he doesn't vant to present any names without a full complement of board members to pass on them. Sam Ichinose is presently in Japan guid-ing the fistic destinies of Dado Marino and Noble Kauhane is on leave on the Mainland.

But corridor politicos think there may be more to the delay. Some say Keppeler won't get the job—that it will go to a Republican and that in return for that office, the board will confirm Joseph Esposito as C-C attorney. Others say Keppeler won't sur-vive in any case.

One department head who probably wouldn't be sorry to see a change is Auditor Leonard Fong, who has made no secret of his feelings that the controller's Job has been filled timidly and inadequately.

BILL 33, the new sewage rate which would establish a new principle in government here, was tabled at Tuesday's board meeting and may never become law as written. But the principle of charging for the use of sewers probably will be adopted in the not too distant future. Many Mainland cities in the states of New Hampshire, Connecticut, Michigan, Minnesota, New York, Oregon, Flortda, Tennessee and Texas are already charging and have been doing it as far back as 1939. Thirty-nine per cent of

1939. Thirty-nine per cent of the cities in the population brack-et from 250,000 to 500,000 were charging householders for sewers in 1949 when the last authorita-tive study was made.

Like taxes, charges for city services are seldom repealed once they have been made. There is no record of the sewage charge being abandoned once it was adopted.

DAVID T. FLEMING, SR., executive at Maui Pine, told G. D. Russell sometime ago, to hand in his resignation by April 31. Russell, who knew that April had only 30 days, tendered his resignation as of the 30th and went to see the Baldwins over Fleming's head. As a result he received a substantial

DEGREES OF SIN

When the Nicholas County (W. Va.) News Leader published a story recently of how police had beaten up two alleged bank robbers in trying to get confessions, a reader wrote to ask if the paper was "really sympathetic" to bank robbers. The editor answered this way:

aren't members of school that teaches degrees of sin. Bank robbing is no worse than other thefts and degree of guilt has nothing to do with the size of the swag. Every depositor is insured up to ten thousand so the depositor wouldn't lose anythous depositor wouldn't lose anyhow, and we haven't time to worry about the stockholders in bonding companies, Robbing a bank isn't worse than a little inside-Wash-ington secret that would prompt an individual to buy up land on which an atomic plant is to be lo-cated. Nor is it worse than fur coat and deep freeze honorariams. coat and deep freeze honorariams. Yes, we are sorry for all fellows who think they can make their way without work; sorry for them, too, because parents, school are the 6-res responsible. And we are opposed to the police beating anybody, for any reason."

Sen. Wayne Morse Invited

PORTLAND, Ore (FP)—Oregon longshoremen have invited Sen. Wayne Morse (R.) to hear their story of the dictatorial and un-American policy which they say lies behind the Coast Guard screening program.

HARBOR SEWER DAMAGE

Air \$77,000 Mistake Before Public, Say Engineers; Wallace Says Cause Not Known

By KOJI ARIYOSHI

No responsibility has been fixed thus far for the estimated mini-mum of \$77,000 damage done back in January to the sewer line installed not long before under the entrance to Honolulu harbor.

Plans are being made to ask the city to pay the cost of rectifying the damage.

Engineers who asked not to Engineers who asked not to be named, remarked that something "smells awfully bad" and the Engineers' Association of Hawaii should look into the whole praject as a public service. All the facts should be given to the board of supervisors and aired before the public.

"Taxpayers should not shoulder the cost until it is found that they the cost until it is found that they can be legitimately asked to foot the additional amount. The contract was let out to Hawaiian Dredging for a specified sum. Did the company follow specifications of the plan? Was the plan faulty? Who is responsible for the damage to the sewer line?

These are some questions a highly placed engineer asked.

Cause Unknown

George C. Wallace, supervising engineer of the division of sewers, said: "We don't know what caused the damage."

The pipes which had been laid had shifted and this was discovered when a test was made.

The project, called the Ala Moana Force Main, Job No. 30-49, was planned by the engineering firm of Metcalf & Eddy, Boston.

Several Causes Possible
After the discovery of the damage. Harrison P. Eddy of the Boston firm came here and as a result of his investigation, according to Mr. Wallace, several possible causes could be blamed for the mishap. These are some of them:

The anchor of Matson's Ha-

- waiian Fisherman was dragged over the sewer line and this may have caused damage to a section of the line.
- The tug Gail possibly looped a cable on the line.
- Shifting mud on the harbor bot-
- tom.
 Settling of the backfill.

Mr. Wallace said he thinks that the Hawaiian Fisherman caused damage to the line, but he said divers will have to be sent down to cheek for possible cridence. divers will have to be sent down to check for possible evidence. When this will be done, he did not say. Evidence, he said, includes marks of the anchor. "We have a very clearly-marked area where the pipe is

marked area where the pipe is and where anchors must not be dragged." Mr. Wallace said.
Why did the anchor sink into the mud and why did it do damage to the huge pipe? Why the possible shifting of mud? Did the original plan drawn by Metcalf & Eddy specify rogks for back fill instead of specify rocks for backfill instead of

The original specification calls The original specification calls for five feet of material excavated for the pipe line. The material was "a very fine sand," Mr. Wallace explained, "which consolidates nicely."

Did the Hawaiian Dredging Co.

follow the original specifications or did the city engineers alter the plan drafted by the Boston firm?

Claims Plans Followed

No changes were made from the original plan, Mr. Wallace answered, and he added that Hawaiian Dredging followed the Metcalf

ian Dredging followed the Metcan & Eddy specifications all the way. When the repairs are made, would the sewers department use rock for backfill around and over the pipe? Mr. Wallace was asked. He answered, "Yes. Then anchors would ride over the rocks and would not sink in as in the case of mud."

A well-known engineer was sur-

A well-known engineer was surprised that rocks were not used in the first place.

Whose Boner?
"If Metcalf & Eddy made such

a boner, the city ought to get back some of the \$275,000 it paid the company," he said.

Qualified observers believe the pipes were not anchored properly. he explained. For the head of the big established firm to come here to inspect the damage and say that possible causes of damage are settling of backfill or shifting mud "seems out of this world."

The cost of repairing the damage is estimated to be \$77,000. Several engineers said, when asked, that a thorough investigation must be made first, the extent of damage determined and estimates for rectifying the damage be made by a little bath. age be made by a third party— not by the Hawaiian Dredging Co. or the city and county.

As for Matson's Hawaiian Fish-erman, which possibly faces a suit,

according to Mr. Wallace, it is an entirely different story, one engineer commented. The important, project ahead is to lay the sewer line so that anchors cannot damage it, nor loose cables or shifting

Mr. Wallace says he agrees with Mr. Eddy-that "any one of the numerous causes could have done the damage."

The highly placed engineer men-The highly placed engineer men-tioned earlier in the story com-mented that "responsibility must be fixed and the \$77,000 must not be paid out until this is done. Furthermore, the public must know why the additional cost is \$77,000 and not \$66,000. Who set it? Here is where the Engineers' Association can do a real public service."

Wall Street and You

By THE SPECTATOR (Federated Press)

ARMS BOOST FOR BUSINESS MAY NOT BE ENOUGH

The continuing drop in prices on the New York Stock Exchange Wall Street's way of worrying over the future of American business. It means fear that prospects of selling goods at a profit are less rosy than before

The financial and business journals give many hints of the worry possessing America's ruling minds. Anxiety about over-expansion of industrial capacity is growing. There are reports of slackening sales and some unemployment.

Unemployment Developing In Several Lines

Financial editor John G. Forrest of the New York Times wrote May 27 that "while costs and wages are in an upward spiral, unemployment is developing in several lines. Many steel executives, at their annual meeting last week, tended to minimize the cutback in steel for civilians, stating that 'shortages will be over sooner than a lot of people think."

The suggestion that steel may become a drug on the market finds similar expression in Barron's, the financial weekly, reporting May 28 that "steel men are beginning to wonder whether we shall not have too much steel rather than too little."

Business Week for May 26 was larded with items of poor business, though it also had an article on shortages of imported metals, with the comment that "the international raw materials conference in Washington is a total bust."

Everybody seemed to agree that the auto industry was in for a slump, at least, till next year when normal demand might again set in. The Wall Street Journal May 28 used as its leadoff story a dismal survey of auto sales in leading cities. It found that the independent manufacturers "are suffering the severest sales letdowns" and that "many agencies for the Big 3 of the auto industry—General Motors, Chrysler Corp. and Ford—are also in the doldrums,"

Chiming in, Barron's relates that "the sagging automobile market is claiming its victims."

What To Do After the Defense Hysteria Is Gone

"Consumer buying is hesitant," reports U. S. News & World Report June 1, with "dealers' stock of automobiles and building materials, furniture and appliances far above levels of last year . . Steel industry executives see plenty of steel perhaps by the end of this year."

What to do when the rearmament spree has passed its crest and the country settles down again after the defense hysteria to humdrum production and selling?

The question goes to the heart of what the National Association of Manufacturers likes to call the free enterprise system. The answer was given in devastatingly blunt terms a century ago by two German economists who considered the falling rate of profit the forecast of doom to capitalism.

"Over-Extended" Economy Is Mild Term

U. S. News contents itself this time with just asking a couple of disturbing questions. It lists special tax favors given new facilities by the Defense Production Administration, stating that "these figures disclose again that the basic plan of U. S. mobilization is to expand capacity." Then it cautiously asks:

"What can the country do with this capacity after it is built and the defense program completed? Will the country be over-extended?"

Over-extended is a mild term for what may be a very serious condition. When General MacArthur allowed his armies to become over-extended in North Korea last fall, many American soldiers lost their lives and the general lost his job (though not his pay-check).

When America's productive capacity becomes over-extended, many American soldiers of industry will lose their industrial lives and many employers will lose their shirts.

In other words, excess capacity—meaning facilities for greater out-ut than can be sold at a profit—tends to undermine the basis of capi-alism. Either creeping or galloping depression sets in. The fact that talism. Either creeping or galloping depression sets in. The fact that plenty of people may still need what is no longer profitable to produce simply adds to the cris's because their discontent calls into question the validity of the system itself.

Hence the present worry in Wall Street about the country becoming over-extended

man here from Washington. He says you've been appointed Vice President in Charge of Appointing Vice Presidents for the mobiliza-

Bridges' Attorney to File For Rehearing of Appeal

SAN FRANCISCO (FP)—"Some people supposed the U. S. Supreme Court would be the last bastion against oppression. I was not so hopeful because when the government grows corrupt, the courts be-come affected."

That was the comment here of Attorney Vincent Hallinan after the high court refused to hear his appeal from a contempt of court conviction growing out of his de-fense of union leader Harry Bridges and two other officers of the International Longshoremen's & Warehousemen's Union. Halli-nan was sentenced to serve two concurrent six-month jail terms.

Pledges Free Defense

Pledging its continued support of Hallinan and his colleague, James M. MacInnes, who was also convicted of contempt, the ILWU said Hallinan was sentenced "sole-ly because of his persistence in presenting a vigorous and fair de-fense and his attempt to bring before the jury the long record of persecution which preceded the persecution which preceded the case and the fact that the Supreme Court, itself, had once judged the case and threw it out."

judged the case and threw it out."
Hallinan, who announced he would file for a rehearing of his appeal, said: "If the corrupt elements in our government today believe they are going to crush the independence of the American bar by these means, it they think they are going to crush the aspirations of labor, they are crazy. As far as I am concerned, I shall come out of jail a thousand times more determined, and to the best more determined, and to the best of my ability I shall defend for free any oppression case brought

to me.

Faith In Common People

"In one way I find comfort in
the stupidity that engenders this
act, for I have faith in the American people. I have read the history that shows the people are
capable of rising up against this
sort of thing, and I am mindful
that one of the greatest Presidents
of the United States, namely,

dent precisely because of similar stupidity." This was a reference to Jefferson's leadership in the fight against the alien and sedition laws which were finally repealed.

Oil Companies Profit At Expense of Public

WASHINGTON (FP)—Another gigantic tax dodge at the public gigantic tax dodge at the pubme expense by big oil companies was revealed May 16 as Secretary of the Interior Oscar L. Chapman, said the Petroleum Administration has recommended and the National Production Authority has granted, tax amortization certificates on 87 refining projects, costing \$446,500,-000.

Under the amortization certificates, the companies are allowed to charge off depreciation of one-fifth of the cost of the plant each year on their tax will.
At the end of five years, the catire cost is covered by tax deductions. The companies own the plants but the public has paid for

A total of well over \$3,000,000,000 has been allowed by the government as a tax dodge to steel companies and the like

on the theory that the companies would not take chances on building new plants if they had to pay for them themselves, despite

the current high rate of profit. Chapman announced basic refining projects should be allowed to charge off 75 per cent of the total cost, and specialized facilities, such as those producing avia-tion gasoline, up to 100 per cent.

PIE IN THE SKY

and the appearance of having been
considerably used in his time. He also has the appearance of being able to go through some more using, and he also has a lot of

ideas,
"Not at the police," he rumbled in answer to my question, "or at any rate, not on streets or in alleys where the underworld is supposed to shoot, according to all the B grade movies. But there may be some political

there may be some pointean shooting."
"Why, George," I asked, "what is political about threats from the underworld? I thought both parties were against the underworld. I thought the bi-partisan policy was to be against crime in all forms."

Crime and Politics
George smiled in a sort of lopsided way and said: "In the open,
yes, but I can see you haven't
been reading the news from Washington lately. Did you not notice ington lately. Did you not notice that when they got to asking ex-Mayor O'Dwyer of New York City about crime, he turned pale and began to sweat? Did you not observe that some officials in New York resigned, and that others have become very hard for the newspaper scribes to reach?" I nodded. "That's right, but what's that got to do with Dan Liu?"

"Nothing," said George,

maybe it has something to do with his opposition. Anyhow, it sounds very much as if the chief has an eye out for the press, the way he announces these threats."

"How do you mean?"

"Didn't van prifee" asked

"Didn't you notice," asked eorge, "that when he made "Didn't you nouse, congre "that when he made that protest about what he called interference by Dr. Apoliona, it was just right for the Star-Bulletin's deadline? And then, so the Ad-extiser couldn't claim it had been scooped, he announced threats from the underworld so Thurston could have derworld so Thurston could have

a beat."

I shook my head and said: "You think the chief

a beat."

I shook my head and said: "You mean to say you think the chief and the cops didn't get any threats? You mean you think that was all phony about some-body calling and telling a cophe'd keep a date with builets?"

Cop's Job

"Oh, no." George said. "The chief says there were threats. That's part of being a cop. Cops are always getting threats. But that doesn't mean anybody's actually going to shoot anybody when was the last time anybody shot at a cop?"

"The last time I remember was the Boston Building burglar, back

the Boston Building burglar, back before the war," I answered "The cop ran and got demoted for it." George nodded and said: "Yet,

George nodded and said: "Yet, in many towns of this size, cops

Makes Press Release of Threats-Todd are being shot at all the time. The truth is, Honolulu is a very peace-

"That's so," I said.

"But," said George, "But," said George, "even if it weren't a peaceful place, even if it were like a Texas boom town, Dan Liu would be using the wrong tactics. Did you ever hear of the Texas Rangers hollering about being threatened? Did you ever hear of New York's "finest" giving out press releases that they had been threatened?" threatened?"

"No, I don't believe I have."

George went on, "Now J. Edgar Hoover and the FBI like publicity. You know that. Ever since the days of Al Capone, they've been patting themselves on the back every time they move—yet you never hear of them telling the press about threats, do you?"

"No," I said, "and I remember it isn't the first time for the Hoit isn't the first time for the Ho-nollulu cops, though. I remem-ber back a year ago, just before Judge Scott told Pittsburgh Lampley it was quite all right for him to hit the cop who tried to arrest him for not moving on back then, the police said they were getting threats. They even said they were issuing extra ammuni-tion."

George said: "There you are.
Yet, nobody ever shot anybody
and nobody was about to. It
was just a lot of tough talk and it had the purpose of drawing the public attention from what was really happening—that the cops were shoving people around on Smith Street."

around on Smith Street."
"So the chief had better watch
his publicity tactics," said George.
"Otherwise, he's going to be in
the same position as the little boy
who yelled 'Wolf!' If the wolf
does come some day, people will
be so used to the hollering they
won't pay any attention."

Press for Peace

In his keynote address to the National Union of Vehicle Build-ers' convention, President W. A. G. Roberts appealed to all of organ-ized labor to press for a Big Five peace pact, wage increases at the expense of dividends and for the abolition of anti-strike law 1305.

Roberts told the delegates the jubilant scenes at Labor's victory in the 1945 general election had given way to "doubt and frustration." As an avowed socialist, he continued, he was impressed by the great measures of peaceful construction being carried out in those countries that had rid themselves of their traditional exploiters selves of their traditional exploiters and rulers.

"I believe they have a great future," he said, "I believe their example will be followed in Brit-ain. We will follow it in our own way and according to our historical development."

Bring Boys Home from Korea

Discussing peace, he said: "We must take the cause of peace into our own hands and make it our business. The Korean conflict business. The Korean conflict must be terminated and the boys brought home. All differences giv-ing rise to international tension must be negotiated. We must achieve a peace pact between the five great powers. Better to nego-tiate over a period of years than to allow one day of atomic war-fare."

President J. C. Birtles told 2,000 delegates to the National Federation of Old Age Pensions Associations: "Our movement is passing through one of the most crucial times since its inception . . . chiefly because rearmament is being used as an obstacle to granting better pensions. They have little time or vision to give thought to the plight of the old people and they begrudge them a few of those thousands of millions which they so willingly give for methods of destruction."

Style Gets Price Hike Under Magic Formula

WASHINGTON (FP) - Price Stabilizer Michael V. DiSalle May 29 added a new wrinkle to his magic margin formula for controlling inflation. It appeared in a regulation on prices of shoes,

The order lets dealers figure their own prices with margins like these before Korea and will reflect all added costs of production. Unlike previous margin regulations, this one gives shoe manufacturers and dealers practically free rein in making price increases, based on the latest style.

"Style is a very important factor," DiSalle explained, "particularly in women's shoes."

IRANIANS MOCK UNCLE SAM-An anti-American poster is carried IMANIANS MOUN UNCLE SAM—An anti-American poster is carried by members of the Tudeh party during demonstration in Teheran to demand speedy nationalization of Iranian oil fields. The poster shows Uncle Sam being thrown out, with reference to American "junk sellers" flooding the country with preservatives, dolls and the like. The U. S. government and oil interests handle most of the oil produced by Iran.

THE HONOLULU COMMUNITY THEATER

The Honolulu Community Theater, a very private organization, has recently been favored by the Parks Board with the announcement that available public land near the Kapahulu district may be granted to the group for housing its theater. Originally, the group used as headquarters the beautiful Dillingham Hall on the Punahou campus for its productions. We do not believe that it is in the interest of the public that a private organization be granted so much favor by the Parks Board.

This is a repeat of the favored Polo Association which for many years had the lease of grounds near the Diamond Head section of Waikiki at a very cheap rate. Individuals, the average citizen, Mr. John Q., without the connections of a Dillingham, will never get the break organizations such as the Community Theater or the Polo Association have managed to receive.

This project of the Community Theater will no doubt be consummated, aided and abetted by the powers in the Parks Board. But we doubt if the board of directors of the Community Theater will look with favor on any outside groups not closely allied with theirs to use the semi-public facilities. We say semi-public because the building, while on public land, will be owned by the theater group. As such, they will control the use of the structure by outside groups. This, we believe, is a highly improper precedent to set in the use of public land.

SPORTS TID-BITS FROM HERE AND THERE

THE UNIVERSITY OF HAWAIT'S Board of Regents announced a couple of days ago the increase of a semester's tuition at the Manoa school to \$100. This, plus other fees and the cost of buying at the expensive campus bookstore, will make it tough for youngsters. Outside island students will find the going rough, what with the room rent and kaukau to contend with.

Local athletes will be further discouraged by the local state of affairs and we can see the further migration by them to Mainland colleges where offers of part-time jobs, scholarships, opportunity for travel, will be the magnets.

HAWAII IS NOTED for government by commissions. There are boards and commissions for everything and anything. And so it follows that an amendment to the Territorial boxing laws gives the commissioners the right to appoint their own secretary-administrator.

Our recent article on equal pay for equal work (the case of Bobby Lee) brought out the fact that Lee isn't getting paid for the higher classification job he is doing. After a little delay by the classication board of the civil service, Lee will soon get a readjustment in his pay.

THE PROMOTIONAL VENTURES of David Heath and Company will be determined by the June 26 smoker. If the Philip Kim-Emil Barao, Henry Davis-Joe Lopez, Bobby Sanders-Eddle Reyes triple attraction doesn't pull in the cash customers, we understand Heath & Co. will go out of the game to concentrate on their own business, which we do not doubt they know better than boxing.

THE LOCAL PRESS is giving a lot of play to the Keo Nakana Meet slated for June 20 through June 23 at the Waikiki Natatorium. Mainland swimming stars and the locals will vie for honors. This meet will show how our local wahine swimmers will more or less make out in the National Outdoor Championships to be held on the Mainland.

PERHAPS WE READ too much humor in ole Jack (Doc) Kearns' FERMAYS WE READ too much numor in ole Jack (Doc) Kearns statement after his fighter, Joey Maxim, lost to Ezzard Charles, that Maxim was doped and if he wasn't he certainly looked as if he wasn However, Kearns recently changed his tune when he was brought before the Illinois commission. He was then quoted as saying: "I have no evidence as to whether Maxim was under the influence of drugs" but that his fighter didn't look like himself against Charles. This, for Doc Kearns, is quite an understatement!

LEO LEAVITT, who lost the first round to the Stadium board in the battle of the wahine wrestlers, has hustled himself off to Hilo and contracted for the Hilo Armory in which to present his show next Saturday night. If it is a matter of argument without points of law, we'd put our money on Leo over any lawyer.

THIS IS OUTSIDE the realm of athletics but we read where a Mr THIS IS OUTSIDE the realm of athletics but we read where a Mr. Henry Lee is suing the Coca-Cola Bottling Company of Honolulu for about \$15,000, complaining that he swallowed pieces of glass in a bottle of coke he drank on October 16, 1947. Which also reminds us of some army tests conducted with cola drinks which were covered in, the Honolulu RECORD which showed that cola drinks, in the long run, do probably more harm than the pieces of glass that Mr. Lee swallowed.

CHARLEY MAKAIWA, local public links golfer, who won the Manoa Cup tourney last week from Lt. James Kinder, calls the Ala Wai course "home." The Ala Wai has been called "easy," monotonous and too flat, but checking the records will show that in tournament play, scores have zoomed right up in spite of the fact that it is not considered tricky. Golfers say that the Ala Wai is good training ground.

BETHEL STREET WISE GUYS are saying that there will be more managerial pilikia for Carl (Bobo) Olson, whose threat to bolt for greener pastures via Sid Flaherty has his advisors worried. Close friends of Bobo say, however, that Olson likes Hawaii too much to make good his threat. And we don't mean the climate!

WE SPENT A GOOD HOUR over at Henry Teruya's place on 10th Avenue two weeks ago, where he keeps his pedigreed canaries. We found out that canaries are not necessarily yellow; that the top-notch singers warble with their beaks closed; that canaries, like human beings, must be taught to sing; that it is cheaper in the long run to invest in pedigreed canaries rather than scrubs because of a better strain of offspring. Teruya started expounding on diet and feeding but it got too complicated, so we spent the closing portion of our visit listening to the singers. to the singers.

From 8th Floor of New Surfrider Hotel

by rope or by the use of a block and tackle, and Barut's superiors should have provided such facili-

"Every accident can be prevented," emphatically says Robert B. Ebert, the Territory's only industrial safety engineer. In all the United States, including territories and possessions, he is probably the only one entrusted with the impossible task of pro-tecting 200,000 wage earners from industrial bazards.

On the Mainland, an inspector makes the rounds of 360 manufac-turing establishments. This is an average for all states. In the average for all states. In the Territory, the establishments sub-ject to inspection by the only in-spector are more than 7,000. Comparison With Mainland

Comparison With Mainland
While the industries in the Territory are largely agricultural, the

Libby Hires U. of H. Truck Drivers

(from page 1)
said, "it will be cause for a
grievance."
A man engaged in the recruiting said: "Libby's tried to get enough men from those on the spot and couldn't find them. Of the students we've tested, a good many failed to pass and qualify as truck drivers."

qualify as truck drivers."

The tests followed an advertisement run in the university newspaper, "Ka Leo," saying sixty truck drivers of average weight and height or better, would be hired for summer work. First-class drivers are to get \$1.35 per hour as compared with \$1.27 for second-class drivers.

A representative of the pineapple union here said he does not know how many available men on Molokai could qualify for the truck-driving jobs, but he reiterated that if any qualified men fall to get jobs while students are

fail to get jobs while students are hired, the union will resort to its grievance machinery to make representations to the company.

The recruiting spokesman here said he understands available, qualified personnel are to be given first chance at the jobs.

Birdseye Diapers Are Cheaper At Jemal's, **But Are Not the Same**

(from page 1)

age at home, however, she found, age at home, however, she found, not the Mainland Birdseye diapers she had expected, but diapers marked "Made In Occupied Japan."

Nor was it merely a case of the Nor was it merely a case of the Mainland Birdseye company hav-ing a plant in Japan. Examining the label closely, she discovered that these were indeed called the "Birdseye" diapers of the "Stork

The young woman has not had enough experience with bogus Birdseye diapers yet to determine whether or not she got a bargain. But she and her husband have expressed surprise that such adexpressed surprise that such advertising deception is possible under American laws, which are generally written and enforced in a manner to protect American manufacturers thoroughly from such patent imitation.

Nearly all travellers into foreign countries are familiar with eigarettes packaged in cartons closely resembling popular American brands and named "Dromedaries" and "Pluckies." But seldom, if ever, are such imitations seen in-side the barrier of the U. S. customs inspector is 21,000. For the Territory it is 200,000.

Thirty-seven states on the Mainland spend 23 cents per Mainiand spend 23 cents per worker per year for safety services. New York spends more than a dollar per worker per year. The Territorial government spends 3 cents.

In all the states and territories, in the four-year period of 1946-1949, industrial accidents followed a general downward trend but in the Territory of Hawaii, the trend shot upward. The division of in-dustrial safety of the department of labor and industrial relations, in making a report to the legislature this year, said that the trend "will probably continue to rise." It also said that if industrial activities "are stepped up due to the defense program, this rise may be very rapid unless additional safety measures are instituted."

No Help from Legislature

The labor and industrial relations department asked the budget bureau for funds to increase the staff of the industrial safety divi-sion by adding an assistant safety engineer, three general inspectors, one boiler inspector, a stenogra-pher and a clerk.

The legislature gave no additional staff members, but rather, cut the appropriation for the department.

In contrast to this, the state of California spends more than a million dollars a year merely for safety inspection.

The state sends one safety inspector out to a job and he stays on the job to safeguard the work

Government and private indi-viduals who are concerned about the high rate of industrial accidents here say that the City and County of Honolulu alone has about a dozen materials inspectors, who are supposed to see that contractors follow specifications. Why not have inspectors to look after the workers' safety? they ask, saying that lives of workers are much more important.

William M. Douglas, administra-tor of the bureau of workmen's compensation, says that "Every major project should have at least one full-time safety inspector." His department paid \$1,219,829 in compensation during 1950. In 1946 total compensation paid for industrial accident cases was \$779.119. The total cost of accidents is rec-ognized as four times the direct compensation payment, therefore, in 1950, industrial accidents cost the Territory approximately \$4,900,-

All this does not include the All this does not include the suffering and hardships brought to the injured and their families. Safety Engineer Ebert says the Territory has good safety laws. It needs personnel to enforce them.

Ohio Teachers Migrate

COLUMBUS (FP)-Failure of the Ohio legislature to raise legal minimum for teachers' w is stimulating an exodus of foot-loose instructors to Michigan, Pennsylvania, New York and even West Virginia

West Virginia's minimum now is higher than Ohio's.

59 Cents Less Than C&H Coast Employes

C & H discrimination of its Hawaiian workers.

Besides wage differentials, here are some other conditions existing in the two factories owned by the Hawaiian sugar plantations:

- California C & H gives workers six paid holidays when not worked. Alea workers do not get
- · Sick leave at the Crockett plant is one year maximum. At Aiea the maximum is 30 days.
- Workers on the 4 to 12 shift receive five cents per hour extra at Crockett in shift premium. Aiea workers do not get this premium.
- Workers on the 12 to 8 shift receive 10 cents extra per hour at C & H. Crockett, but Aiea workers do not get this shift premium.
- The California C & H workers have a union sliop agreement, Aiea workers have no agreement with the company for a union shop.

Bouslog Asks DPI To Practice Own Lessons At Kahuku

(from page 1)

it were DPI practice to take such summary action against students before charges had been proved against them, or even before they were indicted.

She was told that principals are empowered to take such action as they feel necessary to "preserve the morals of the students."

Interviewed by the RECORD, Mrs. Bouslog expressed the opinion that the observance of constitutional rights is just as important to the morals of high school students as anything else.

"The school authorities," she said; "were inclined to side with the principal's action."

From other sources, the REC-ORD learned that expulsion has not always been the action taken against students who were ar-rested and charged.

Although the issue remained in doubt until last Thursday, young Vanu visited the school that day and received his diploma, though he had missed the last three weeks of school.

Said Mrs. Bouslog: "I can't un-derstand how they can teach of constitutional rights in schools and yet withhold such rights from the students in practice."

FRANK-LY SPEAKING

(from page 8)

of New York and Atty. Charles P. Howard of Des Moines, Ia.

While it is likely that you who read this may never have heard the names of most of these, they are virtually household words to 15,000,000 American Negroes. Trying to isolate them from the Negro masses cannot be done by a committee headed by White Supremacist John Wood of Georgia and which has a notorious anti-Negro record.

LOOKING BACKWARD

those in control of the land, the machinery and the labor supply. Many of them have become very rich. They live in excellent style; they send their sons and daughters to Eastern colleges and universities; they themselves, take frequent trips to Europe or to the United States, and they are as cultivated and as delightful a people generally as there are anywhere to be found in this world. anywhere to be found in this world.

"As to the remainder of the population—the vast majority who do the hard work of the islands—the system presents entirely different aspects, some of which I shall point out in another article. The system makes much sugar and large profits, but what sort of a democratic citizenry does in make? Are men improved by it? Is there more justice, more liberty, more brotherhood?"

 $(Ed.\ Note — This was written more than three decades before workers organized themselves on the sugar and pineapple plantations.)$

Worker's Head Bashed By 4x4 Thrown Aiea C&H Workers Get Coast Guard, Eskovitz Callous To NMU Man Screened Off Here With Only \$30

(from page 1)

tem against which militant unions have protested.

Captain Helps Guards

When the guards told him he was screened off, Silverman at first refused to go, standing on his rights. But then the captain of the Kennebago ordered him off and he had no alternative.

The guards deposited him at the Pearl Harbor gate with his bag and told the marine on duty he was not to be allowed to re-turn. The marine ordered him to move his bag and Silverman refused, saying he hadn't put it there.

Then the marine put his hand

on his pistol holster.

"Go ahead and shoot me."
Silverman told him: "Tm outside your guard post."

The marine then took a different tack and said he wouldn't be responsible for the bag, so Silverman took it away.

verman took it away.

First he contacted the Overseas Terminal, agents for the
Tankers Co., which sails the Kennebago. They told him they
wouldn't pay his way back because they weren't responsible for
his rotting off the chim his getting off the ship. Coast Guard Callous

Calling Commander T. K. Whitelaw of the Coast Guard, Silverman explained that he had almost no money and he asked to be allowed to sign on a ship bound for the West Coast,

Whitelaw refused. The seaman then asked to be

llowed to work his way on a ship.
Whitelaw refused.
He asked for an appeal hearing.

Whitelaw refused, saying an appeal is impossible.

peal is impossible.

Silverman asked how the
Coast Guard expected him to
live, when it had taken away
his means of working.

"I'm not interested in how
you live," was Whitelaw's answer. "I was only interested in
getting you off that ship."

Whitelaw hung up.
Then Silverman went to see

Spencer Suspended On Drunk Charge; Given Promotion by DPI

(from page 1)

which resulted in his suspension, in giving him the promotion, would not comment. He referred the RECORD to Dr. Loper, who was not available at press time. The date for Mr. Spencer's trial

will be set Friday, according to the prosecutor's office.

Several parents who read the announcement of Mr. Spencer's promotion said, in view of the DPI suspension, the depart-DPI suspension, the depart-ment's conduct was most shock-

parent commented that since Roosevelt high school is to a large extent for children from middle-class hable homes, it prob-ably seemed fashionable to pro-mote its principal.

(from page 1)

icemen are admitted, but not civilians. The girl, he says, started to tell him and then changed her mind.
"I think it was because of what

Think it was occause of what happened after that story the RECORD published on Captain Heywood." Lampley says.

He was referring to the story, front-paged in the RECORD, of how Capt, Willis Heywood of the

now capt, while Heywood of the U. S. army, who had lost a foot fighting in Korez, was barred, with his wife, at the night club's door because he is a Negro. Following that story, Hawaiian Armed Services Police are alleged to have called the Brown Derby and warned that if any servicemen are barred for any reason, the establishment will be put out of bounds.

Rudolph Eskovitz, NMU representative here.

Eskovitz "Judge"
Eskovitz told him: "I don't have any sympathy for you subversives."

Amazed. Silverman savs asked: "Do you mean because I got that letter (notifying him he was "subversive") I'm guilty so far as you're concerned? You appoint yourself judge and jury without hearing any evidence?"

Eskovitz had little to answer except that he couldn't help the member of his union. He could only suggest welfare as a possibility.

It was somewhat later Silverman managed to meet friends through the Marine Cooks & Stewards Union who lent him the monfor his trip back to the West

"Write about it." one of them told the RECORD, "and point out that the Coast Guard cleared him on the West Coast and then took him off here. Yet they refuse to take responsibility for their own mistakes. It would be a joke if it weren't so awful.

Why 5 Policemen **Quit Every Month**

(from page 1)

ever, as to whether the "new look" of police executives is actually oppressive to police officers, or whether it represents an advance in police work.

in police work.

Change May Be Progress

"The officers are sore," said one observer, "because the executives don't always back them up any more. In the old days, when a civilian came to complain about the police, he was always wrong. The cop was right—at least according to the executive. It's not like that now."

Although Chief Dan Liu is given

Although Chief Dan Liu is given much credit for trying to develop, by degrees, a more humane attitude on the part of his subordinates, he is not the target of old-timers. Their targets are more often Liu's assistants and certain members of the police commission.

"There are two members," said one officer, "who back Dan up, and there are two others who are always trying to get him out. I think the ones who back him up do it for the good of the service. I don't know what's behind the others."

Says Commission Meddles

The commissioners, instead of giving Chief Liu the prerogatives usually due a department head, often interpose themselves in police affairs, officers say, in such a way as to create disorder rather than eliminate it.

"Some of those commissioners," said an officer, "try to superin-tend everything from executives to janitors. They'd do better somewhere else."

STEPPING ON HAWAHAN WORKERS

Some time ago Delegate Joseph Farrington got hot under the collar over the matter of chopping 25 per cent cost-of-living differential of Federal employes here who are residents of the Territory but of continning to pay the 25 per cent to employes who have come from the Mainland. The delegate termed such treatment "colonialism.

The fighting position taken by the delegate was commendable. We are informed that many local big employers took the same position, condemning the discriminatory treatment of native residents.

While on the one hand the Federal government is blasted, we find that the dominant industries in the islands practice with their other hand exactly what some of them—at least publicly—frown upon as discrimination and "colonialism."

During the last waterfront strike the big employers here-tied up by interlocking directorates-fought desperately to break the longshore union and keep the pay differential that still exists between dock workers on the West Coast and here. For doing the same work, dock workers here get less pay.

What is this anyway? "Colonialism"? Farrington's paper, the Star-Bulletin, doesn't say a word to that effect. But Farcington was right in blasting the Federal government. Why can't his paper do the same for the Hawaiian longshoremen? After all it's not like hitting the Federal govexament far away in Washington. The employers of the Hawaiian and West Coast longshoremen are right here.

During the last waterfront strike when the big employers here called arbitration "communistic," the Star-Bulletin was picketed by the boss-haole dominated broom brigade and the big firms cut down their advertising space in the newspaper. In a semi-colonial area like this where the likes of the Big Five dominate practically everything, any crusading requires sacrifice. But there is need for crusading and there is sienty of room for it.

Elsewhere in this issue we have an article about the Aiea workers who receive 59 cents less an hour than sugar workers at Crockett, California, doing the same work for the same company, the California and Hawaiian Sugar Refining Corp., Ltd., which is owned as a cooperative by Hawaiian sugar plantations.

This discriminatory treatment shows, among other things, the contempt local employers have for native-born workers. It is the kind of treatment the Standard Oil Co. hands out. Better pay for workers of the U. S., but starvation wages for native employes in Arabia and other colonial countries. All this falls into the pattern of colonialism. It must be corrected. There are no two ways about it.

FACTS IN THE NEWS

Two stories in this issue show the many ways in which news stories are covered. The dailies, for example, treated the \$77,000 damage to the Ala Moana sewer main without going into the background. Policy, perhaps, shaped their stories with the editors and reporters having their hands tied. Yet here the taxpayers' money is involved and some accounting must be made to fix the responsibility for the faulty sewer main.

In the other story, an employe of a large contracting firm was critically injured at the Surfrider hotel. The dailies merely covered the accident. But was the injured employe adequately protected? This is answered by the background to the story in this issue.

Looking Backward

"WONDERFUL HAWAII"

Editor's Note—The following Looking Backward was taken from articles by Ray Stannard Baker, who wrote strong exposes of social and economic conditions in the U. S., in the early years of the century known as the "muckraking" period. The articles on Hawaii appeared in the American Magazine in 1911 and 1912. They indicate how much change has come to the Territory and yet how similar conditions are in many respects to the earlier years he describes. years he describes.

Although the sugar industry was never so profitable as it is "... Although the sugar industry was never so profitable as it is today, giving off rivers of wealth, thousands of children in the islands today are without adequate public school advantages. I found the government actually renting rooms in private Japanese schoolhouses because there was no money to provide new school buildings. And yot, while I was in Hawaii, during the session of the legislature, the Planters' Association made a fight against an increase in the tax rate which would give the Territory more money for its schools.

"And yet, while pleading poverty when the school appropriation comes up, the planters have brought about the appropriation at each recent session of the legislature of about \$20,000 to bring over invited parties of members of Congress. These men are carefully selected by paid representatives of the planters' interests in Washington, and every cent of their expenses and often the expenses of their families to Hawaii and return is paid. So much depends on beneficial legislation in Congress that this expense seems necessary to the business interests; but as a property of Congress and of these delegation." That ests; but, as a member of Congress said of these delegations: 'The feet never once really touch the ground while they are in Hawaii . .

Ewa Plantation Success Story

Ewa Plantation Success Story

"Let me tell you the story here of Ewa Plantation, which, while it is not the largest, is one of the most successful in the islands. It was established about twenty-two years ago. The original investors capitalized the venture at \$500,000. Later, they had to assess themselves for \$500,000 more, so that the stock finally cast \$1,000,000. Beyond this, in the early days, they had, of course, to borrow largely, but these amounts were soon paid off. By 1896 the company had grown very profitable. It earned for a time 5 per cent a month on the existing capitalization. It then pursued the course which many of the plantation corporations of the islands have followed; it issued a series of stock dividends. That is, it presented its stockholders with so much additional stock free of cost. Today, without another cent in cash having been added, the capitalization is \$5,000,000, on which the corporation is paying 18 per cent a year dividends. In other words, the original owners of the stock have seen their investment increase five-fold, and on that five-fold increase they are now receiving 18 per cent a year. This is the equivalent, for all the original investors, of 90 per cent ayear. Moreover, the stock in Ewa, with a par vaue of \$25 a share, sells at \$32. Is it any wonder that they talk of the success of the system in Hawaii?

Same "Narrow Group of Men" Have Control

Same "Narrow Group of Men" Have Control

Same "Narrow Group of Men" Have Control

"But this is not all by any means. The same narrow group of men
who own or control the plantations also own or control nearly everything else. For example, the fertilizer business of the islands, which is
very important, is wholly monopolized by two non-competitive corporations, and both of these corporations are controlled by the agency corporations. Both are made to pay fine profits. One of them, which
had been paying 18 per cent profit on a capital of \$300,000, last year
made a stock dividend of \$300,000—doubling the holdings of its stock
holders. The same group also controls the profitable Honolulu Iron
Works, which has been successful in building high-grade sugar mill
machinery. They also control practically all the wholesale and most of
the retail mercantile business of the Territory. They are interested,
back and forth and in and out, in the banks and trust companies, and
they control, directly or indirectly, practically all public utilities, telthey control, directly or indirectly, practically all public utilities, tele-phones, electric light plants, railroads, and in some degree, the steam-ship lines. If one venture proves unprofitable, they make it up on some other venture.

"As in the old South the system has been eminently successful for (more on page 7)

By FRANK MARSHALL DAVIS

UN-AMERICANS GROW DESPERATE

In a desperate move calculated to scare Nogroes into support of the administration's war program, the House un-American committee has issued a 166-page report listing dozens of the $\mathbf{m} a$: prominent brown Americans as "Communists" or

. "Communist sympathiz-ers" because of their ac-tivities on behalf of tivities peace.

It so happens that Ne groes as a whole are not too favorable toward the Korean or any other new war. There is still terrific bitterness toward the same old discrimination and jim crow which goes on even though the prop-aganda says we are "pre-serving democracy." Many have stated frank-

MR. DAVIS

Many have stated frame—

by that if we can send troops thousands of miles away to "save democracy" in Korea, we can also send soldiers down to Mississippi to end the continuing disgrace of anti-Negro terrorism.

Negroes Against Forging Chain Of White Imperialism

in the fight for equality. Negroes have developed In the fight for equality, Negroes have developed a group militancy and missix on making themselves heard. There is also a growing reeling of solidarity with the other colored peoples of this earth wno are trying to throw off the rule of the white colonial powers in Africa and Asia which America supports. A high percentage of Negroes will not back a war intended to forge the chain of white imperialism around the throats of other colored people. White supremay looks as rotten in Africa and Asia as it does in America.

These are some of the reasons why many Negroes have actively aligned themselves with the peace camp. Naturally, this has not gone unnoticed throughout the world, just as other people notice continuing injustice toward non-whites in a nation which insists that it has cornered the democracy market.

Obviously, this does not set well with the ad-Obviously, this does not set well with the administration and Congress who occasionally say the proper things about civil rights but refuse to pass any laws barring discrimination. Rather than end those evils which are the daily fare of all non-white Americans, they would rather try to scare the victims into silence; instead of saving the lives of the Martinsville Seven in Virginia and Willie McGee in Mississippi, they are trying to intimidate their ethnic brothers into silentily dying to make the World safe for bigger and better Martinsville and McGee cases. tinsville and McGee cases.

Will Expose Absurdity of Name-Calling

The House un-Americans apparently believe they can accomplish this purpose by listing leading Negroes as Communists or Communist sympathizers in a day when such names have been made into trigger words. But I am convinced it will have the opposite effect. Those Negroes who look at the list and see the names of most, of their helpwed leaders are only not account. beloved leaders are going to see how absturd is the whole idea of name-calling, or else they will conclude that if these be Communists, then maybe communism is not so bad. Either way, the un-

Who are some of the better known Negro Americans cited by the committee? As might be expected, Paul Robeson and his famous wife, Eslanda Goode Robeson; Dr. W. E. B. DuBois and his distinguished author-wife, Shirley Graham; William L. Patterson, executive secretary of the Civil Rights Congress, and Langston Hughes, poet laureate of the Negro people, are on the list.

on the list.

But those not previously fingered include Earl B. Dickerson, former president of the National Bar Association and one of America's most distinguished lawyers; Dr. Rufus Clement, president, Atlanta University; Dr. Warner Lawson of the music department and eminent sociologist Prof. E. Franklin Frazier and historian Dr. Rayford M. Logan, all of Howard University; Dr. Benjamin E. May, president, Morehouse College; Dr. Leslie Pinckney Hill, president, Cherney Teachers' College; Dr. Charlotte Hawkins Brown, president, Palmer Institute; Dr. Ira De A. Reid, sociology professor Haverford College, and many others.

They Are Virtually Household Words

They Are Virtually Household Words To Fifteen Million People

Religious leaders include Dr. William H. Jernagin, president, National Baptist Sunday School Congress; Bishop William J. Walls, secretary board of bishops, and Bishop A. J. Allen, A. M. E. Zion church; Bishops R. R. Wright, Jr. and S. L. Greene, A. M. E. church; Bishop Cameron C. Allyne, C. M. E. church; the Rev. J. S. Brookens, editor, A. M. E. Quarterly Review, and others.

Several of the well known public figures are Fredi Washington, former motion picture star; Kenneth Spencer, concert singer; Mrs. Mary Church Terrell, educator and civic leader; Duke Ellington, band leader; Atty. Vivian Carter Mason
