THE TOWNCRIER Says

"Some folks charge that women have no imagination, which is indeed an understatement. If you hadda been with me last Sunday to a school picnic where every woman brought "pot-luck" and seen what the positive sex could do with a bit of macaroni and her imagination, you woulda been amazed. Every dish different! It was Colossal! It was Inspiring! It was a doctor's nightmare and in the ensemble looked like A HOBOKEN SUNSET!

To Aid Unemployment

Vocational School To Offer Summer Course

As part of local plans to combat unemployment, the Maui Vocational School will conduct a summer session Engine Tune-Up (auto mechanics) course which opens June 19 and ends August 18. Those interested in attending should register at the Territorial Employment service office on Market St. Wailuku, or at the Maui Vocational school between now and June 2. Applicants will be interviewed and tested at the Vocational School for acceptance June 1, 2 and 3.

"The purpose of the summer program is to utilize vocational training facilities and personnel during the summer months to equip unemployed men with specific skills, knowledge and information of one trade, preparing them for employment in a field where opportunities seem most promising at the present time", Principal Duncan Sinclair said.

All applicants must be over 16 years of age, physically able to do the work, and must pass a basic educational and aptitude test. The course will be limited to nine weeks during which 360 hours of practical instruction will be given. A fee of $10 will be charged for the course. This fee is to help defray the cost of supplies actually used by the student. Upon satisfactory completion of the course, the student will be granted a vocational certificate by the Department of Public Instruction attesting to the training received and the actual number of hours put in.

The course instruction will include Engine Theory and Design, Principles of Engine Operation, Fuel Systems, Carburation and Detecting Ailment With Instruments. The Maui Vocational School is fully equipped with modern machines to teach this course.

Up-Country Folks Aid Boys Camp

Send Money To Buy 78 Shares In Boy Builders UnLtd.

Up-Country folks hearing of the need for funds for sending deserving youngsters to camp for one week, over the first week start buying shares in Boy Builders Unlimited, which is capitalized at $300 for the purpose of seeing that the boys get their camping vacation.

The faculty of the Paia school subscribed for 17 shares at $1.00 per share, which will send three and two-fifths boys to the camp. As two-fifths of a boy will look funny running around the camp, it is hoped that someone will add the other three dollars to this sum in order to send one complete boy. It takes five shares at $1.00 each to put a boy in camp.

A spokesman of the Paia faculty said, "We work with boys and we know the importance of this work. There is nothing that sells a youngster up for the summer, and prevents him from getting into trouble, like a camp."

Another Up-Country organization which bought heavily in the future of the young citizens of Maui was the Makawao Union Church Ladies Aid who purchased 26 shares. Then a third purchase came from a Makawao resident who wished to remain

Lahaina Pali Road Will Be Closed Saturday

Territorial highway department officials Monday announced that the Lahaina Pali road will be closed to traffic between the hours of 8 a.m. to 4 p.m. on Saturday, June 3.

Blasting of the mountain side, in connection with the construction of the pali road project, is expected to take place during the time set for the closing of the highway.

$18,000 WADING POOL—Here is what the people of Lahaina had hoped would be a small boat harbor, but which they must wait for until after the next legislature untangles a little of the red tape that is wound all around it. Attorney General Walter Ackerman has ruled that the remaining $50,000 voted for the small boat harbor cannot be used to dredge the harbor as the bill failed to specify "dredging". Pictured at right center are two youngsters ages 6 and 12, which make it a small fry harbor instead of small boat. (Roy Nakamoto Art Photo).

LEIS FOR PUNCHBOWL CEMETERY—More than 4,600 floral leis were loaded on the MATS plane when it arrived at Puunene airport at about 2:15 p.m. on Monday, to pick up contributions from Maui schools and residents for the decoration of the Punchbowl National Cemetery in Honolulu. The plane's crew and Sakae Mukai, of the district school superintendent's office, are pictured above standing in front of lei-packed paper crates, wearing or displaying some of the leis. 'Monk' Jowell Leads LA To Polo Triumph

By W. J.B.

The Fifth Horseman of the Apocalypse alias "Monk" Jowell rode into the Honolulu Stadium last Friday night and got kudos for the all the Mainland polo teams that have fallen before the flashing mallots of the champion Maui team. Rushed to Honolulu after the Los Angeles team had fallen badly before the Oahu Blues a week ago, Mister Jowell seemed to turn a just so-so polo team in trio of hellions on horseback that turned Maui back, 12-7.

Only once did Maui flash its superb offense that has made it cock of the walk in local polo circles. That was in the second canto when facing a 3 to 1 deficit after the first chukker, they brought the crowd to its toes with a flashing attack and unbeatable teamwork.

The second chukker was but to seconds old when Manduke Dalid win sunk a goal after a long drive down the field. Then the centaur Jowell, who must have escaped from the Li'l Abner cartoon strip slashed one in for the Angeles in just an even ten seconds of play. Manduke scored again after Gordon von Tempsky and Ric had rode the opposition out of the way. Score still 4-3 for L. A. Baldwin then missed three close ones, one of them bouncing off a horse. Then he teed up the score by taking the ball off the

Homage Paid Maui War Dead Tuesday

By EMIL BALTHAZAR

The Hawaiian dawn broke beautifully on Memorial Day, 1950, as the warm shafts of the rising sun dried the dewlike tears on fresh flowers placed on many final resting places of our beloved dead throughout the Valley Island. The Stars and Stripes waved quietly at half mast in the Veterans Cemetery at Makawao, while in Wailuku, Mauians gathered to watch an impressive parade made up of veterans, Gold Star Mothers, Legionnaires, Auxiliary members, scouts and J.P.O's, as they marched to the music of the Baldwin High band towards Wells Park, the site where annual homage is paid to America's War Dead.

As the tower clock of the historic Kaahumanu Church struck nine, the parade got underway at the County War Memorial Plaque and marched its way down Main street, where sidewalks were crowded with respectful onlookers.

When the head of the column entered Wells Park the bleachers were already filled with waiting spectators rising in respect to the passing Colors. The program got underway as soon as the different groups had filed into their respective places and master of ceremonies, Al Spenser, called on Legionnaire chaplain, Father Anthony O'Brien to give the invocation. The prayer said in part,—"Oh God, help us to pay proper homage to those who shed their blood for our sake and guide us the living so that we can effect a true and lasting peace. Amen."

Principal speaker at the public demonstration of memorial tribute to the fallen soldiers of past Wars, was Father Gregory Shea, who in his twenty minute talk, "Hit home", what he termed the only means of safeguarding peace. "Keep the commandments of God", he admonished, "and America will be able to keep its peace so dearly paid for by Johnny Doughboy whom we honor today."

He berated the "glib tribute paid the War Dead once a year," which in effect he claimed was followed by a "do nothing attitude for the rest of the year to insure the peace which is precariously sitting on a time bomb." We cannot state, he continued, that they who died for their beloved country did so in vain; it is we who

live in vain in failing to act righteously before God to save that peace from ruin. "They are blessed who died, who gave everything up for us. Have we honestly kept faith with them?" He warned that America today is comparable to the Roman Empire in its heyday, endangered from within by despots of hate, hating the very freedom which they are allowed to house. He spoke of that freedom as rightfully delegated from the authority of God and not of men. He concluded, "If Americans keep the laws of God, we the mothers, relatives, and friends of the spiritually living Doughboys will meet in heaven one day."

Chairman Edward F. Tam, who preceded the principal speaker, made a touching tribute to the War Dead and begged the living to be on the lookout for the "Disciples of hate in our midst". Referring to Communists as the "cockle among the wheat" he warned that we must plow them under to save the crop of freedoms.

The well known junior soloist of Hawaii, Jimmy Moikeha sang a "Prayer to Hawaii" and "On the Road Home" between speeches.

Teichiro Maehara spoke in Japanese in behalf of the Gold Star parents present. His brief talk, later translated by Noboru Koito read in part: "Since the birth of this nation countless men have died for freedom. Although their bodies have gone down in the preservation of this nation I believe their spirits are with us today. We the Gold Star parents are so close to this truth and on this solemn occasion we want to convey our heartfelt gratitude to all of you who have comforted us in the past. Time and again as our War Dead were brought home to rest we have received a measure of sympathy and tribute from all of you beyond our expectations. Our boys have given their lives for this nation and we are proud that they were able to meet the test."

Three volleys of fire shattered the stillness and final taps sounded in reverent tribute to the fallen heroes of our beloved Nation. Wendell F. Crockett then read the historic and touching Gettysburg address, first given by the great "Abe" many years ago.

At the closing of the hour of tribute Gold Star parents were led to waiting cars by members of the Women's Auxiliary of the American Legion which was to take them to the Makawao Veteran's Cemetery for the final public tribute at the graveside of their beloved sons. (EB).

4 Records Set In Girls Swim Meet

Micks Beat Baldwin In Dual Clash

Kaunoa, Baldwin Hi Mermaids Win Local Competitions

Coach Tai Hi Lim's McKinley High School mermen captured every race in their 10-event dual clash with Baldwin High to outscore the local swimmers 52-30 while competitors in the two female divisions of the All-Maui women and girls' meet established four new marks last Saturday night at the Puunene Athletic Club pool.

A huge throng crowded the pool area to witness the Baldwin mermaids coached by Mac Nakano, avenge last year's loss by defeating the unattached team, 28-12, in the women's competition of the Rotary Club-sponsored meet, while Clarence Yoshioka's Kaunoa School pupils copped an easy victory in the girls' division with 34 points. Trailing the winners were Puunene 18, unattached 14, Iao 6, and PCA 0.

Miss Kaleo Brandt of the Kaunoa team, lived up the pre-meet expectations by setting a new 25 yard freestyle mark of 14.6 seconds, bettering Barbara Komine's record established last year by nine-tenths of a second. Harriet Fernandez, unattached, also set a record for the 50 yard freestyle, copping the event in 35.4 seconds to shatter Shirley Miyamoto's two-year-old mark of 35.6. Miss Brandt was runner-up.

Kaunoa's 100-yard relay team of Misses Joan Perry, Shirley Walsh, Jan Priest, and Brandt made their best mark of the season in breaking Iao School's record with a 1:04.9 second effort. The old mark, set in 1949, was 1:07.

One new mark was established in the women's division as Miss Miyamoto of Baldwin High clothromed Mitzie Higuchi of the unattached team to win the 50 yard backstroke event in 36.9, bettering the old mark by 1.5 seconds. Miss Higuchi, suffering from a leg cramp, also failed to repeat her 1949 triumph for the 100 yard freestyle race, won by Hattie Yang of Baldwin, however, was able to win the 50 yard breaststroke event over Irene Soto of Baldwin and Keiki Churchill of PCA, who fin-

Makino Makules In Crucial Noda Loop Tilt Tonight

Makino Store will be out to beat the Ichiki Store tossers in the final makule division game of the Maui Noda Softball League tonight (Wednesday) which would place them in a runner-up tie with Ito Market and necessitate a playoff of a 19-19 deadlock tilt earlier in the season.

According to Herbert Hasegawa, league manager, the Sam Sato makules may yet have to meet either Makino Store or Ito Market in a playoff for the championship of the regular season. Sam Sato and Ito Market have both completed their schedule and boast records of seven wins and three losses, and six wins, three setbacks, and one tie, respectively. In games played last Monday night, Ige Market handed Nakamura Market its ninth loss of the season with a 25-6 drubbing while the Kahului YPA seniors suffered their eighth straight setback by posting 16-4 to Hamasaki Store in the twinbill opener.

Police Cop Blooper Ball Loop Crown

The Maui Police Department teamers defeated Kamaainas, 4-1, last Monday to cop the championship of the local businessmen's blooper ball league with six wins without a setback at the Papohaku Park.

Monday's loss placed the Kamainas in a two-way tie for runner-up honors with the Emura Jewelry baisman, 1949 round robin titlists. The teams have four wins against two losses.

The final clash of the regular schedule is slated for today (Wednesday) between Ichiki Store and the Meyer Company tossers, who copped the league crown last year. A berth in the round-robin playoffs which was scheduled to start this Friday, will be at stake. Meyer Company can clinch fourth place with a win today, however, a loss would put the two teams along with Maui Pine, in a tie, which would necessitate a playoff.

According to Blackie Nishimura, league manager, the round-robin series will probably get underway next Monday and not Friday as previously planned. The Maui Metal trophy put up by A. Apana, and individual championship medals will be awarded to the members of the police squad.

Several awards will also be at stake in the round-robin series, including the perpetual Rymie J. Meyer Jr. memorial trophy and a championship trophy, donated by Ogawa Jewelry. Other prizes will be awarded to the most valuable player, batting champion, home run leader, and for the most hits and runs scored.

The standings, up to and including Monday's game, follow:

Tanaka In Hero's Role For Pirates; WMCA, KRR Shutout

A "story-book" victory-clinching pinch-hit double, the season's first home-run, and two shutout pitching performances highlighted last Sunday's Maui Senior Baseball League tripleheader at the Kahului Fairgrounds with the Puunene Community Association, Makawao, and the West Maui Community Association nines copping their second triumphs of the current campaign.

The Cowpinerd handed the West Maui CA tossers their second loss in three starts in the morning game by blanking them, 6-0, and the title-defending PCA Cubs also shutout the winless Kahului Railroad Co. batsmen, 5-0, in the midday contest while the East Maui aggregation kept their slate clean by edging out the Wailuku Sugar Co. Cardinals, 9-8, in the nightcap.

The first two games were completed in fast tunes of 1:39 and 1:32 minutes, respectively. The final tilt lasted for 2 hours and 10 minutes.

Sharing pitching glories with brilliant shutout victories were Clarence Sakamoto of the Cowpiners and rookie Gilbert Souza of PCA, who made his first senior league start last Sunday. The day's thriller, however, was provided in the final contest when Akira Tanaka, EMCA pitcher, who was called on to pinchhit in the last half of the ninth with the bases full, two outs, and his team trailing by one run, stamed a 1-

count pitch for a two-bagger. The line double, which rolled all the way to the centerfield fence, scored two runners to give the Pirates a 9-8 win.

MAKAWAO 6, WMCA 0

Lawrence Shim, Makawao's rookie catcher, shared the spotlight with Sakamoto in the opener when he knocked the first four-bagger of the current season in his first appearance at the plate, of losing hurler, Lawrence Kasekas in the second inning.

The Cowpinners rallied three more runs in the third frame on four hits, including Johnny Tashiro's triple, and tallied another in the following inning to send Kaseka to the showers.

Reliever George Kaaihue held the swinners hitless for the next three innings before yielding a run on two hits in the eighth.

Sukamoto, despite his teammates' four errors, pitched masterful ball, holding the West Mauiana to five hits, although the losers threatened to break the shu-out on five different occasions. Six WMCA batters fanned while four gained life on bases-on-balls.

The losers left 12 men stranded on the bases to Makawao's four.

Makawao enjoyed its biggest inning in the third. With one out, Benson Koshiro, who singled, tallied on a stolen base and two successive errors followed by Albert Amuro's one-base safety. After Pevalia was retired on a grounder to first, Tashiro connected for a long three-bagger, driving in Amuro and scored later on a fourth hit by Stanley Honda.

Shim was also the day's leading batter with three hits in four trips to the plate and drove in and scored a pair of runs. His teammate, Amuro, besides playing brilliantly on defense, got credit for two singles.

PCA 5, KRR 0

Every one of the 10 players who saw action with the PCA team last Sunday had one hit as the Cubs sparked by the standout four-hit pitching of Souza, handed the Railroaders their third consecutive loss of the season.

The Cubs clinched victory on a three-run rally with Masayoshi Koshiro, Joe Akina, Akira Miyamoto and Joe Ginoza adding four safeties to a walk issued by Winfred Tajiri, KRR starter who went the route for the losers.

While his teammates were providing him with the comfortable lead, Souza bore down to allow only seven batters to gain life on the bases, one on a walk and two via field errors. He also struck out five and faced 32 batters, five more than the "perfect" 27.

The winners accounted for an additional tally in the eighth on singles by Andy Miyamoto and Joe Balangitao, rookie prep stars, while Akina scored the fifth run in the finale on three wild pitches by Tajiri after drawing a walk.

EMCA 9, WSCO 8

Tanaka's two-run double climaxed a wild scoring battle which saw the lead change hands four times after the East Maulana drew first blood with one tally in the initial frame.

Southpaw Harry Tokunaga made his second start of the season and pitched swell ball for five innings, holding the Pirates hitless, while his teammates scored four runs in the fifth and sixth frames. After retiring the first two batters, Tokunaga encountered control trouble, issuing two walks, and was relieved by veteran Johnny Murray as EMCA first sacker, David Oya,

drove in a run on the winners' first hit of the game.

The Pirates regained their lead in the seventh by rallying four runs on four hits and an error only to have the Cardinals retaliate with four more runs in the eighth frame on an almost identical rally.

After getting the first batter out, Murray filled the sacks with Lawrence Pacheco garnering a single and walks allowed to Frank Singson and Oya. Lawrence Singson fanned for the second out then Tanaka, Coach Lester Hamai's choice to pinch hit for third sacker Takeshi Yamashiro, followed with the game deciding bingle.

Francisco (Echo) Riveira, who relieved William Pung in the seventh inning, received credit for the win while Murray was the losing hurler. Oya was the only batter to get two hits.

Miss Higuchi outstroked McKinley's Amy Inafuku and Sophie Aoki in a special 150 yard individual medley race to win in 2:14.5 seconds. Miss Yang, who also triumphed in the 50 yard freestyle, failed to place.

The fans were provided with additional thrills by McKinley's mermaids, who competed in every event of the women's division as "exhibitions." The visitors lost in the individual medley race was their only setback of the entire meet as both the boys and girls copped all the events in which they participated, including four relay races.

The Baldwin High School swimmen proved no match for McKinley's "favorites" in the boys' prep dual competition. The local swimmers, however, were able to place both second and third in six of the eight individual races and runner-up in two events, to trail the territorial swim champs, 32-30, prior to the relays.

Standouts of the Baldwin team were Hugh and Fred Coleman, Wayne Tomita, Herbert Nakama, Mike Tomita, and Lloyd Inaba.

The winners of the various events were: Robert Yoshimuni, 50 yard freestyle; Henry Kalura, 100 and 50 yard backstroke; Ford Konno, 440 and 220 freestyle; Herbert Nakano, 100 and 50 yard breaststroke; and Nelson Yoshioka, 100 yard freestyle.

Butterfield May Be Released By Hospital Soon

By Josephine K. Medeiros

HANA, May 29 — Word received here recently was to the effect that Robert Butterfield, manager of Hotel Hana-Maui, who took ill about a month ago, was doing fine at the Queen's hospital in Honolulu. His operation, performed May 20, proved successful and he is expected to be released from Queen's early this week.

Mrs. Butterfield journeyed to Honolulu on the day of the operation and had remained there since. The couple's three year old son, Cy, will fly to Honolulu on Hawaiian Airlines today, all alone, and will be met at the Honolulu airport by his mother.

The Butterfields expect to take a two weeks vacation on another island, before returning to Hana in June.

The Waiuanuiua Church's Ladies Guild held a successful bazaar and dance in the community hall last Saturday. The rummage sale and the dance were attended by large crowds.

John Watkins and his Hana Paradise club, mostly young people, held a concert and dance at Umpuhikau school last Saturday evening, May 27. The group made the trip Saturday morning, attended a church fair in Waiakoa, then returned to Hana yesterday evening.

Wilhelm was named as a leader when he graduated from the leadership school in California on April 29.

After his graduation from the school, the members of his recruit squad gave him a Chinese dinner in San Francisco. Wilhelm also received a 15-day furlough and has been in the Army for the past nine months.

Standard Oil Co., of California, was forced to send a gasoline barge into Hana last Saturday, May 27, to fill up their tanks here. A barge was not expected until late June or early July but due to the huge consumption of fuel by the Hawaiian Dredging Co., a barge had to be sent in much earlier than anticipated. The Young Brother tug, Ikiaki made the trip to Hana.

LOST IN A FOG, NOT LONDON BRAND — One of Maui's newest business ventures is the Insecto-Fog system, launched by Birney Taliaferro. The Insecto-Fog system kills all insect life in the house by drenching the interior with a dense fog, which is allowed to remain for several hours. The fog does not affect pets, nor does it do any damage to foodstuffs, draperies or other household materials and clothing. The outside and under the house is also treated with the result that ants, cockroaches, spiders, mosquitoes and other pests cannot enter the house without dying. The service includes a year around prevent've check after the first fogging. Two big fogging jobs recently completed by Taliaferro, who has the exclusive right to the Insecto-Fog, are the Iao Theater and the Snow White Laundry. (Stan Kobayashi Maui News Photo).

Along with the doctor, she became the parent of four children, and climbed in between lectures on India and on Russia. She then returned to

MRS. CLARK

school, Woodbrooke college, Birmingham, England, for studies in religious research and international relations. In 1931 she studied the health cooperatives of Jugoslavia and even did some mountain climbing in the Austrian Alps.

She is well founded on her topic for discussion at the luncheon, Women of India, as she spent from 1931 to 1934 as a member of the staff at Rabindranath Tagore's school and college in Santinidetan, Bolpur, Bengal, India as a public health nurse, particularly among the Hindu and Moslem women in Purdah, assisting in cholera and malaria prevention and control campaigns and in malaria research.

Dr. Janney died in 1937 after the family had another tour in Russia, of typhus contracted during his public health work. In this period Mrs. Clark wrote her book, "We Didn't Ask Utopia", and worked for her master's degree. Following a period on the mainland, she came to Queen's hospital in July, 1947, with her husband, Edgar Sydenham Clark. Mrs. Clark was listed in Who's Who in America — 1944, as a result of her outstanding career in her chosen field of public health work.

Maui Scenes In New Northwest Airlines Movie

Scenes from the island of Maui will be featured in a new $30,000 film to be released by Northwest Airlines later this summer.

An NWA camera team completed shooting of final scenes last week on Oahu and Hawaii. Maui and Kauai were covered in scenes shot several months earlier.

The Hawaiian film, second movie of the Islands produced by Northwest since it started "flying its route between the Pacific Northwest and Honolulu in December, 1945, will be exhibited widely at all points along the airline's Transcontinental system.

The first film, "Stratocruiser to Hawaii", told the story f Northwest's "Hawaiian Express," the only all-Stratocruiser service from New York coast-to-coast and to Hawaii. The second film will round out the coverage of Hawaii's tourist attractions. The first movie stressed the new Stratocruiser service and things to see in the Islands. The new picture will emphasize things for vacationers to do in the Islands.

Included in the camera party were John M. Cook, director of advertising for Northwest; Allan Wash Jr., assistant director of publicity; O. J. Thomas, artist with the NWA advertising staff; Miss Marnie Witte, stewardess; and H. W. Cress and Thomas Persons of Reid H. Ray Film Industries.

5 doctors prove this plan breaks the laxative habit

If you take laxatives regularly—here's how you can stop!

Because 5 New York doctors now have proved you may break the laxative habit. And establish your natural powers of regularity. Eighty-three per cent of the cases tested did it. So can you.

Stop taking whatever you now take. Instead: Every night for one week take 2 Carter's Pills. Second week—one each night. Third week—one every other night. Then—nothing!

Every day: drink eight glasses of water; set a definite time for regularity.

Five New York doctors proved this plan can break the laxative habit.

How can a laxative break the laxative habit? Because Carter's Pills "unblock" the lower digestive tract and from then on let it make use of its own natural powers.

Further—Carter's Pills contain no habit-forming drugs.

Break the laxative habit . . . with Carter's Pills . . . and be regular naturally.

When worry, overeating, overwork make you irregular temporarily—take Carter's Pills temporarily. And never get the laxative habit.

Get Carter's Pills today. You'll be grateful the rest of your life.

HVB Has "Agent" In Oklahoma

Hawaii Visitors' Bureau officials will undoubtedly tell Mead Thomas, Ponca City high school senior hailing from Wailuku, with an assist it, in the very near future, the Hawaiian islands are visited by tourists from Oklahoma.

Thomas, who was slated to graduate from the Ponca City, Oklahoma, high school on May 21, boosted Hawaii as a "land of eternal sunshine" when interviewed for an article which appeared in the May 17 issue of "The Poncan," the school's semi-monthly publication.

The article, appearing under the heading of "Aloha Oe! Mauli! Farewell Left; Not Forgotten," reads:

"If the California chamber of commerce considers their state the land of continual sunshine, they should visit the land of eternal sunshine, the Hawaiian Islands. Mead Thomas, the boy from the islands who spent his senior year at Ponca City high school declared. 'The sunshines even when it rains and there is always a blue sky.'

"Mead is stying with his sister and brother-in-law, Mr. and Mrs. Lavaunhn Williams. The couple met when Lavaughn was a sailor stationed on the island of Maui, where Mead, his sister Ruth, and his parents lived. When the new Mrs. Williams moved to Ponca City, Mead, looking for a change, followed and found a country hot as beautiful, but as charming as his native land.

"The inhabitants of Hawaii and its neighbors are of all nationalities, Mead stated. Mead's mother was born in the islands and his father is from Virginia. But Mead is of Portuguese, Dutch and English descent. His native tongue is English, as most of the natives speak that language, but Mead speaks with a combination of accents which makes the finished product very unusual and romantic.

"City life on Maui is much like American city life with street cars, American-made automobiles and modern homes. Two of the eight islands are too small for habitation. Mead has been only on his scenic island and on the best known of the group, Hawaii. The city of Pearl Harbor there with her color of Waikiki beach and volcano is the chief tourist resort. There are hedges of gardenias and orchids bloom wild all year.

"Even though his native land is a paradise praised all over the world, Mead, a U. S. citizen, has decided to stay in Ponca City for a while and work."

THE TOUGHEST WEAR YOUR CAR CAN GET

...comes when it is standing still!

While you're in the market, your engine cools off. Acid-laden moisture always forms on cooling cylinders. And it produces corrosive rust . . . the No. 1 cause of engine wear.

But there's no pilikia when you use RPM. It stops rust by covering pistons and cylinder walls with a moisture-proof film like a raincoat.

When your engine is running, RPM clings to hot spots which other oils leave bare. So it is still on the job to protect against rust when your engine is cold. You can leave your car idle for weeks at a time and RPM will still be on the job . . . the cheapest engine insurance you can buy. Try RPM in *your* car.

2,000 Deer Roam On Molokai

About 2,200 deer live on Molokai and provide some of the most sought-after hunting in the islands. There is also a small herd on Lanai.

The deer are on private lands, and owners find it impossible to satisfy the number of requests to hunt. Many ranchers reserve the right for relatives or very close friends, while another rancher sells hunting rights.

The Molokai and Lanai herds are the descendent of seven Axis deer brought to the islands in December, 1867. Within a week after their arrival, a young buck was born, and the next month all eight deer were sent to Molokai.

Despite a slow rate of reproduction, the deer increased in number, the available food, water and cover evidently favoring the increase of the species. By 1898, they were so numerous that two professional hunters were hired for the sole purpose of driving them out of watershed areas and killing them. Using dogs to assist them, the hunters killed 4,500 deer.

Never again has the deer population on Molokai been allowed to reach such a high level. Hunting has been the major controlling factor and Joseph Medeiros, wildlife biologist aide of the board of agriculture, estimates that about 650 deer are killed annually on Molokai, although a definite figure is impossible to arrive at.

"Deer are very easily tracked down and killed by dogs," Medeiros says. "They travel in herds ranging in size from three to 100, the usual number in a herd being between five and 15.

"The beginning hunter might have a difficult time in locating his first few deer, but after several outings they become easier to detect. Old timers say that in areas where the hunting pressure is heavy, the deer become very wise and often change their habits, such as coming out to feed when darkness approaches and returning to cover before daybreak. In areas that are not too heavily hunted, they are considered stupid and unwary."

Reports from Molokai indicate that the deer do little damage, other than competing in some areas with cattle for pasture. In 21 years, deer have come into the Libby McNeill & Libby pineapple fields on Molokai only twice, in 1941 and 1944, and both times the damage was negligible. The HSPA experimental sugar cane plot has suffered slight damage on infrequent occasions when the deer ate the very tender leaves or the bucks rubbed their antlers against the stalks. Forest damage has been negligible since the herd was reduced in numbers a half century ago.

Unless pressed during a chase, they do not harm fences. They usually look for areas where the fences cross a gulch or gully, and at this spot go on their knees and go under the bottom wire.

Cane Acreage Increase Noted In Crops Report

About 7,000 more acres were in cultivated crops in the Territory in 1949 than in 1948. This statement is from a statistical report recently issued by the Extension Service economics department of the University of Hawaii College of Agriculture.

The figures were 288,360 acres in 1948 compared to 295,350 in 1949. Practically all of the increase was in sugar cane, which was 213,350 acres in 1949 compared to 206,550 in 1948. There were slight declines in acreages of fruit trees and vegetables; pineapple acreage was 68,000 acres, unchanged from the previous two years.

About 3,625 farms produced livestock and diversified crops on a commercial scale in the Territory in 1949. Of the farms raising livestock, 329 produced beef cattle as a major enterprise, 2 sheep, 74 dairy products, 481 hogs, and 442 poultry. Taro was grown as a major crop on 214 of the fruit and vegetable farms, and 1,453 farms produced other vegetables and fruits. Coffee was a major product on 703 farms, macademia nuts on 70, rice on 59, and honey on 23.

The total land area of the Territory is 4,099,840 acres. Of this only seven per cent is planted to cultivated crops. The remaining area is composed largely of mountains, semi-arid land, and lava flows. Of the total area, 26 per cent is forest reserves, and 42 per cent is cattle and sheep grazing land. Waste lands, parks, roads, and military establishments comprise the balance.

WEDNESDAY . . . . . MAY 31, 1950

WE WONDER?

In the past three decades of newspapering around the County buildings of Hawaii and Maui, the city hall in Honolulu and the legislature at Iolani Palace, we have seen government bureaucracy unwind some mighty queer spools of red tape, and to commit follies that would cause a sweeping clean-up in any private enterprise.

We always thought that back in the "Roaring Twenties", when the Big Isle County Fathers built the huge Hilo Memorial Hospital, exhausting all the funds without furnishing the hospital and causing the hospital to stand idle for many months, was some kind of a record that would stand for all time.

But the goings on over the Lahaina small boat harbor on the West Side, really takes the cake for governmental ineptitude and sputtering fuddy-duddiness.

Every member of the legislature was perfectly aware a small boat harbor was to be dredged behind the breakwater at Lahaina, otherwise, why was $75,000 appropriated to build a breakwater that actually only cost $20,000. The estimates of $30,000 for building the actual breakwater, and $45,000 for dredging out the small boat harbor and a channel were made and checked by Territorial engineers, and those engineers have been to Lahaina and made soundings of the part to be dredged!

Now comes the Attorney General, who advises that dredging cannot be done because the bill called for expenditure of $75,000 for building breakwater only and the remaining $55,000 cannot be spent for dredging in order to make the harbor usable for the fisher folk of Lahaina.

One supposes that it would be all right with the Attorney General if the builders just went on building another $55,000 worth of breakwater straggling along the Lahaina waterfront with about a foot of water behind it, because the money was marked for "breakwater."

This might be a warning to the Maui County Supervisors in building the new memorial hospital. They had better be sure that the bill says that they can build elevators and stairways in the building. Maybe the money is only earmarked to build a hospital.

We wonder if someone is not just a little sore at the people of Lahaina. During the last legislature, the Sunsetters put on a great lobby for their small boat harbor. They went after it hot and heavy in an amateur sort of way, sending simple fishermen over to the legislature to plead their cause and presenting ti-leaf wrapped fish to the legislators. They did not have the assistance of the professional political "do-gooders" or the recognized patronage chiefs, but never-the-less put their plan over unanimously.

That's why we wonder if some of the "professionals" along the line are not just showing these country-boy lobbyists not to be so rambunctious . . . Might be.

There must be some explanation for the whole proceedings, which seems pretty infantile, even for governmental blunderers.

DON'T SELL THE WEST SIDE SHORT

In looking over the program for the 1950 Kamehameha Day celebration we were surprised and disappointed to note that there is no program scheduled for the Lahaina side this year. We do not know if the Sun-Setters did not wish to stage a program or if those in charge of the commemoration of the birthday of the Conquerer did not allot the West Siders a part of the program, but in any case we think it too bad.

Lahaina, as the ancient royal capital of Hawaii Nei, is rich in historical traditions which should be recognized in affairs concerning the days of the royal Hawaiians. Also the good people of Lahaina have proven that they have a particular flair for producing Polynesian pageants that should be capitalized upon to the benefit of all Maui.

We cannot afford to sell Lahaina short, or ignore the fact that the West Side has a particular lure for visitors from the Mainland and the other Islands. By all means Wailuku, as the County seat, should have the leading role in the Kamehameha Day observance, but Lahaina should play an important part in the celebration.

The entire Island of Maui has a definite stake in Lahaina and by building up its scenic points, its rare charm and its inhabitants' ability to stage Polynesian entertainment, we will be creating a greater and greater number of visitors to Maui to our economic betterment.

A RARE CHANCE FOR INVESTORS

Few of us stop to realize that there are some boys in our midst, who for various reasons cannot afford many of the good things in life that are dear to the hearts of American boys.

One of these good things is camping . . . a part of our way of life that is traditional to our heritage. Boy Scouts and youths of other organizations have themselves a high old time every summer on camping trips, while those who do not have all their privileges, can only look on in longing and envy.

This definitely is not a good mood for these youngsters to develop, it leads perhaps only to mischief . . . but very often to trouble, and boys in trouble are a threat to their future usefulness to the community and to themselves.

Now comes an organization "Boy Builders Unlimited" which is planning a week's camp at Maluhia for this type of youngsters. Shares in "Boy Builders Unlimited" sell at $1.00 and five shares will put a boy in camp for the full week.

These youngsters are not just picked helter-skelter and given this free buggy ride for a week. The boys are carefully selected as to those who deserve this trip and are given added responsibility by paying $3 themselves. The committee in charge give these deserving boys an opportunity to work and earn this necessary three dollars. It gives them a certain independence and a right to attend the camp.

For those who can afford anywhere from one to five shares in "Boy Builders Unlimited", here is an excellent chance to invest a little money in shares that will pay off rich dividends in good future citizens of this county and this country.

American Way

By Vote Of The People

By Maurice R. Franks

If our government—local, state and Federal—increasingly fails to reflect the desires of the true majority of our people, the trouble lies not in the form but rather in the fact that what might well amount to the decisive will of the people is less and less frequently heard from on election day.

Let's take the case of President Truman. There is every evidence that he is under the conscientious impression that the American people desire his social program. And it is perfectly logical that he should harbor such a notion—for in his book he has an indelible notation to the effect that a plurality of the voters gave their votes to him—and thereby publicly endorsed the very things he stood for. With the 1948 vote a matter of historical record, doubtless he'd consider himself nothing short of a nasty little double-crosser if he didn't bend every effort to carry out his pre-election promises.

Being an old haberdasher, Harry is businessman enough to appreciate that the first rule of business is to please his customers. If it's pink neckties they want from him, it's pink neckties they shall have—and if he doesn't have them in stock, he'll order them, of course!

This doesn't for a moment imply that the proprietor himself has a personal liking for pink neckties—or that anyone could hire him to wear one, even around the store. But so long as his customers are at him for pink neckties, instead of ties of a more conservative hue, he must display plenty of pinks in his window, if he expects to survive.

Officially, in 1948, the voice of the people spoke—and elected haberdesher Harry S. Truman to the Presidency of the United States. But there was also a voice that didn't speak: the voice of that high percentage of the electorate that, for one reason or another, didn't vote. Possibly that was the actual voice of the people—a voice which might have changed the course of events—but such a chorus just doesn't figure in election returns.

The tragedy certainly doesn't lie in the fact that Harry Truman was elected; it lies in the fact that an administration in Washington must operate with so little accurate knowledge of the true will of the American people. And such a tragedy simply must not happen again—especially in such crucial times as lie in this country's immediate future.

The American voter must conscientiously exercise his franchise—first of all, by voting on each and every election day—but, even more important, by studying all issues and the possibilities of all candidates well in advance of the day of decision.

We must use every means of investigation at our disposal. If we have a good Voter's League, we should use it. If we do not, it is up to us to establish one—and one that is non-partisan and which will offer for study the good points and bad of each candidate, regardless of his political affiliation.

If such a procedure were to be followed throughout the length and breadth of the land, we shouldn't have those millions of silent voices on a day when every eligible voice should be heard.

Unless and until the voice of the people is the voice of a true majority, not even the politicians themselves will be aware of a clear-cut directive and will meanwhile content themselves with functioning in accordance with what they believe to be the voice of the people, as recorded BY THE VOTE OF THE PEOPLE.

THE MAUI SCENE

By CHARLES C. YOUNG

IN HONOR OF 20TH GRANDCHILD—One of the first things your correspondent does on a trip to Molokai is to call up Mr. and Mrs. George P. Cooke at their restful Kaupwailu home to pay our respects. This time when we called from Kaunakakai we learned that former Maui County senator was on the mend after having been seriously ill.

Mrs. Cooke asked us to drop by that afternoon as they were entertaining for a few friends for the first time since Mr. Cooke's illness in honor of a commemorative family event.

The event which rated a gathering of Molokai friends on Thursday afternoon was in honor of the arrival of a twentieth grandchild in the family of Mr. and Mrs. Cooke.

Twentieth grandchild is Giles Edward Cooke, born to the F. Judd Cookes in Boston, Tuesday morning, May 23. The new baby boy is the sixth child in the family of the F. Judd Cookes. The other five grandchildren in the Judd Cooke family spent the summer on Molokai with their grandparents two years ago. Their father is an instructor of music at the New England Conservatory of Music.

It is good to see family life celebrated in the present day American family.

VISITOR GETS INTO FRIENDLY ISLE SWING—We met a very charming lady 65-years-young on the Friendly Isle who is really enjoying her first visit to Molokai and the Friendly Isle. She is Mrs. Grace Kelsey of Seattle, Washington, who is visiting her nephew, Dr. Chase Folger, popular Molokai veterinarian, and his family. Mrs. Kelsey vividly described the reaction of a person from the Mainland arriving in Hawaii at Pearl Harbor, and sliding past the funeral bier of the USS Arizona with Old Glory flying above it. Mrs. Kelsey had this unusual experience because, as an employee of the army, she made the trip to Hawaii on an army transport which docked at Pearl Harbor from Seattle. We can well imagine the things that run through a person's mind as they glimpse this American shrine of Pearl Harbor for the first time. We hope that Mrs. Kelsey continues to have the same good time during the rest of her sojourn on Molokai that she did the day we had the good fortune to meet her.

CIVIC CHANGES ON THE FRIENDLY ISLE — "A year's absence from the Friendly Isle divulges many civic improvements on the Friendly Isle. A trip from Kaunakakai to Maunaloa on the West End of the Island used to be a nightmare as one either fought dust in dry weather or used chains or didn't get there at all over the twisting, dangrous mountain road in wet weather. Now on the new paved super highway, which starts a mile and six-tenths beyond the Homestead Field road and runs over a gradual grade for six and nine-tenths miles into Maunaloa, with a sweeping panorama of Oahu in the distance on the way in. The new road has closed the distance from Kaunakakai to Maunaloa to but 16 miles.

In Kaunakakai town, the new garages and service stations of Friendly Isle Motors and Kaunakakai Sales and Service has added to the appearance of the town, while the construction of the new H. Kanemitsu market has removed another eyesore in the town.

The opening of fee simple lands in the Kaunakakai area and the granting of home loans by the banks has led to the construction crew's hammering and sawing and the pride in home ownership by Molokaians.

Jack Barry Hit Own Competition on Air—Mrs. Sam Goldwyn to Write "Open Letter" to Producer

By JACK GAVER
United Press Staff Correspondent

NEW YORK (U.P.)—Jack Barry has the distinction of being his own competition.

This energetic young creator of radio and television shows, including the popular "Juvenile Jury" program, is a participant on the Joe DiMaggio radio show on the NBC network from 7:30 to 8 p.m. on Saturdays. At the same time he is on NBC television with his "Life Begins at Eighty" program. The dual work is made possible, of course, by transcription of the DiMaggio program.

Barry also has extended his work with young people to a noon show on Sundays from Billy Reed's Little Club, which is a night spot for grown-ups and not a gathering place for moppets despite its name. This program on station WOR involves Brady interviewing the children of celebrities. Milton Berle's daughter was on the other Sunday and guessed that Bob Hope was her favorite comedian.

"Juvenile Jury" has been a success from its beginning in 1946 and is still heard on WOR Sunday afternoons.

"Never talk down to kids," said Barry in explaining his success with children. Treat them as equals, don't be condescending. Laugh along with them, not at them."

LEAVES FROM A Librarian's Notebook

NEW BOOKS for your reading pleasure.

Paul Annixter's "Swift Water" will appeal to those who enjoyed "The Yearling." This is the wholesome, heart-warming story of the companionship of a father and a growing son in the northwoods of Maine, hunting and trapping together, sharing the joy of life in the wilderness.

A young English war widow and a Negro doctor fall in love and fight for their love—not in the comfortable cosmopolitanism of an European city, but in a small Caribbean island where the contempt of white for black and of black for white breed violence as the sea breeds hurricanes. The title of this gripping story with an exotic setting is "Under the Skin" by Phyllis Bottome.

"Star Money", Kathleen Winsor's first novel since "Forever Amber," is another of the author's books. Less sexy than "Forever Amber," "Star Money" is a modern story starting in wartime America — the story Shireen Delaney, who writes a tremendously successful book and her subsequent adventures and love affairs after she has attained fame and fortune.

One of the extraordinary true stories of World War II is "King-Doctor of Ulithi" by Marshall Paul Wees. The inspiring story of a doctor —this is Dr. Wee's first-person account of what happened when the Navy ordered him to a tiny island paradise in the Pacific to look after the health of the natives.

B. J. Chute tells the story of a successful man who hated his job and of girl who hated failure. The title of this new book is "The Fields are White."
