TEST TEST TEST: Test of emergency alert system scheduled for Wednesday, Nov. 22

The University will conduct a test of its emergency communications procedures on Wednesday, Nov. 22. A UH Alert email message will go out to all students, faculty, and staff, and UH Alert text messages will be sent to those who have signed up to receive emergency text messages at <http://www.hawaii.edu/alert>. All members of the UH West O'ahu community are urged to sign up to receive these opt-in text messages.

The UHWO homepage at <http://www.uhwo.hawaii.edu> and UHWO social media pages will be also updated to reflect the UH Alert test. Here are a few pre-planning tips to prepare you for an emergency situation:

- Know all exit locations in a building. Most people recall the way they entered the building, but if this entry/exit is blocked or overcrowded, it is important to know an alternate exit location. If you find yourself in a building you're unfamiliar with, follow the overhead exit signs.
- Have a pre-designated meeting place for everyone in your office or classroom.
- Know who is not present for the day so that they can be accounted for at the designated meeting place.
- If an evacuation is necessary, the building can be evacuated either by the fire alarm being sounded or by instruction to leave by Campus Security, Campus Administration through UH Alert, or emergency response personnel.

Alarm-pull stations, extinguishers, AEDs, and exit locations are identified on the floor plans posted in each building near the elevator.
