

# EWA HURRI-CANE

VOLUME XX

Ewa, Hawaii, August 1, 1969

NUMBER 31

## The Plantation

Sugar produced for the six days of last week was about 2,235 tons. The grinding rate averaged 3,077 tons of net cane per day; mill extraction averaged 96.14. The T.C./T.S. ratio was 8.65 as compared to 8.26 for the previous week. Poor quality cane from Field 31 gave trouble in milling. Lost time for the factory was 7.18 hours and 9.08 hours to harvesting. About 40 barrels of oil were burned while repairs were made on number 4 bagasse carrier. Hay plant production was 158 tons. Harvesting and milling will return to a five-day week after working the past two Saturdays.

Harvesting for the week completed 170 acres, starting in Field 45 Sunday afternoon, completing Field 45.1 and some 70 acres of Field 45, the remainder of Field 31 and part of 61. The heavy rain amounting to 1.89" in Field 61 Saturday afternoon at about 1:15 forced operations to shut down for the week.

The long hot water seed treating tank recently modified for ratoon stunting disease control, was put into operational use on Thursday, when thirteen tote boxes of variety 58-4392 were treated for planting in Field 86, as a seed nursery. Temperature control was checked and found by Dr. C. Wismer, H.S.P.A., to be most satisfactory.

Production News	Week Ending 7/26/69	To Date 32,237
Tons Sugar Shipped	2,028	32,237
Acres Harvested	170	
Tons Net Cane	18,462	
Tons Cane Per Ton Sugar	8.65	
Tons Cane Per Acre		103
Tons Sug. Per Acre		12.70
Tons Sug. Per Acre Per Mo.		0.525

## C&C Revenues Up But Earnings Drop

Castle & Cooke last week reported higher revenues but a decrease in earnings from operations for its first fiscal quarter ended June 30.

Revenues for the first three months amounted to \$106,516,000, compared with \$94,879,000 a year ago.

However, net income from operations totalled \$3,160,000, equal to 31 cents per common share, down from the \$3,954,000 or 39 cents per share, for the same period last year. Total first quarter net income a year ago amounted to \$7,807,000 or 77 cents per share, and included an extraordinary gain of \$3,853,000, or 38 cents per share. There was no extraordinary gain in this year's first fiscal quarter.

President Malcolm MacNaughton, however, warned against using the first quarter figure to forecast results for the full fiscal year because of the fluctuating nature of much of C&C's operations. He recalled that last month he had predicted lower earnings for the first quarter but had also anticipated that earnings for the full year would be somewhat above last year's record profits.

## Aloha, Not Goodbye

Thursday marked the final pauhana for Carmelo Agustin, irrigator. Born in Dingras, Ilocos Norte, Philippines, on July 16, 1904, Carmelo arrived in Hawaii on the President Pierce on October 28, 1927.

A day after his arrival he was hired by Ewa as a laborer. However, most of his years of service at Ewa have been spent as an irrigator.

Carmelo has a wife, Solidad, in the Philippines. He plans to return to the Philippines sometime in mid-November of this year.

## Field Supervisory Changes Announced

Assistant Manager Robert Cushnie announced on Tuesday five changes in the field department's supervisory lineup. The changes, he said, were occasioned by one supervisor's resignation and another's request for transfer.

In a memo to all supervisors dated July 29, Mr. Cushnie said, "I regret to announce the resignation of Sadao Higashi, Irrigation Foreman, effective August 15, 1969. Sadao is leaving us to go into private business. We are all going to miss Sadao."

A field supervisor for 24 of his 25 years with Ewa, Sadao Higashi has been Spraying Overseer, Pickup Foreman, Shift Plowing and Mechanical Ratooning Foreman, Hand Weeding Foreman, Hand Spraying Foreman, Relief Irrigation Foreman and, most recently, Irrigation Foreman since 1958. Sadao's experience and services will indeed be missed.

Replacing Sadao Higashi as Irrigation Foreman will be Stephen Glipa, presently Senior Overhead Irrigation (OHI) Foreman. An OHI Unit Operator before becoming a Supervisor-in-Training in 1964, Steve held three different field supervisory jobs before being made Senior OHI Foreman a year ago.

Frank Goto and Charles Aina, present OHI Foremen, will continue their responsibilities over the overhead irrigation system. Charlie Aina started a twelve-week vacation last week and will return in October.

In the Harvesting Division, Albert Maria, Assistant to the Harvesting Superintendent has requested a transfer out of the Division for health reasons. Effective today, he was assigned to the Preparation Division as Plowing Foreman. With Ewa for 45 years, Al worked at various jobs in the Harvesting Division before being promoted to Shift Harvesting Overseer in 1950. He moved to the Assistant's job in 1965.

Also effective today, James Ornellas, Shift Harvesting Overseer, became Assistant to the Harvesting Superintendent. Twenty-four years at Ewa, Jimmy also worked at various jobs in the Harvesting Division before being promoted to Field Foreman in 1956, then Shift Harvesting Overseer in 1959.

Plowing Foreman, Felipe Lariosa, replaces James Ornellas as Shift Harvesting Overseer. During his 36 years with Ewa, Felipe has been a harvesting crane operator, then Supervisor-in-Training in 1962 and Plowing Foreman two years later.

## Ewa Leeward Carnival and Fair Aug. 29, 30 & 31

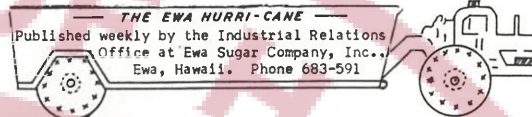

MANPOWER IS NEEDED!---To man the food booths, the game booths, to help in booth construction, to sell scrip, and to do the various and sundry things which make for a successful carnival and fair.

WE NEED YOUR HELP! Volunteers can contact James Ornellas, overall food chairman, or Pat Borge, games chairman.

Malasadas cooks are needed. Without them there will be no malasadas wagons this year.

Carnival scrip is ready. Bona fide Ewa clubs wanting to make extra money selling carnival scrip can contact Kojiro Nakamura at 683-293 or 683-621.

Booth construction is slated to start on Monday, August 11. Bring your saws and hammers and join the hard-working throng at Ewa Tenney Field. WE NEED YOU!

## The Safe Way Is the Ewa Way

HELPFUL HINTS ON ACCIDENT PREVENTION

Keep your eyes open and your mind on what you are doing. Listen to Safety advice from your fellow workers, read your Safety Posters and abide by your Safety Rules. Work safely, help maintain safe working conditions and encourage others to work safely. When safe work methods and habits for all employees of the Ewa Sugar Company become the natural thing to do, we will have a perfect Safety Program. When that day comes, the majority of the non-lost time and all of the lost time injuries will become a thing of the past. This is not an impossibility. It is something worthwhile working for and it can be accomplished. If you are Safety minded at all times, there is no reason why you should ever become involved in an accident. When you see a fellow employee working in an unsafe manner, correct him by telling him of the possible danger to himself and to others. Take the time to show him the safe way. This method of Safety education followed by all employees and supervisors will make Ewa a Safer place to work and live. Safety regulations have been drawn up for your own personal protection. It is your duty to yourself, your family and your fellow workers to follow them.

## Fasi Gives Sage Advice to Teens

"Your most important job, as I see it, is to understand our system so you can preserve it in original intent."

Mayor Frank Fasi, in addressing youths at the Ewa Community Church's Coffeehouse Session last Saturday, made this idea one of the central foci of his speech.

He said that instead of fighting the concept on which the system is based, youths should fight the people who are doing a bad job of running it. Throwing out the entire system because a part of it is imperfect is not the answer, and changes could be made without causing chaos in society.

Mayor Fasi added that while the country has had periods of violence and decadence, there have been times of peace and progress. During our present decade of confusion, it is still worthwhile to retain confidence in the future and understand the causes and effects of any event before taking action.

"You, the youth of the nation, have in your hands the capacity for making great changes. . .The important thing is that you make the changes based on wisdom rather than emotionalism," said Fasi.

## Classified Ad

FOR SALE: 1966 Oldsmobile deluxe station wagon. \$1500 or best offer. Call 467-981.

## Junior Olympics - 1969

Two medals were won by Ewa athletes at the Junior Olympics held last Saturday at Campbell's Athletic Field. Carol Sakaba placed third in the 50-yard dash for the Bantam division (8 & 9 year olds), with a time of 7.9 seconds. Randy Barbieto threw the softball 182 feet for a third place medal in the Junior division (12 & 13 year olds). Both athletes from the ERA summer fun won AAU Junior Olympics Track and Field medals.

Wahiawa was the overall winner in the large division with 107 points while Waianae emerged victorious in the smaller division with 79 points. Winners of the cheering contest were Pearl City and Ewa Beach.

## Welcome Back

After an absence of 11 years, Alex Winsley, Jr., better known as "Skipper", arrived in Ewa last Thursday for a short visit with his parents, Mr. and Mrs. Alex Winsley, Sr., of Renton Village. Accompanying "Skipper" was his wife, Pat. Their daughter, Chris, 8, has been here since June 14, and is staying with her grandparents for the summer. Two other children, Billy, 9 and Robert, 5, are on the mainland.

"Skipper" is an engineer for Patton Brothers in San Jose, California. The Winsleys will be here until August 3.

## Welcome to Ewa

Emilio Palao, a low grade centrifugal operator for the company, welcomed his wife, Hermenegilda to Ewa. Mrs. Palao, the former Miss Bontilao of Cebu City, Philippines, arrived here on July 24.

The couple were married in the Philippines on January 1, 1969. Mr. and Mrs. Palao make their home in Tenney Village.
