ANNUAL MEETING
JANUARY 23, at 4 p.m.

Veterans Back in PROMOTIONS Three Shops

Nobuo Soma - Blacksmith, Grade VII
Louis Perreira - Internal Combustion Eng.Mech.Tr., Grade V.

Wataru Kidani

Harry Oshita

Etsuo Harada

Three young gentlemen returned from the army this month. They're back on the job.

Harry Oshita served with the 3rd company, 40th Battalion, Field Cadre and was stationed at Camp Stoneman, California. Now he's plying his trade as welder in the steel shop.

Etsuo Harada is a painter, trainee IV. Etsuo served with the Military Police Company at Fort Shafter.

Back working in the carpenter trade is Wataru Kidani. He was stationed at Schofield with Detachment S, 8285th Army Unit Service Company.

Mothers March For March Of Dimes

Get your porch light on! Monday evening, the 19th, 150 Ewa mothers will call on people at home in their "Mothers' March on Polio."

Each year the March of Dimes campaign in Ewa is highlighted by this house-to-house canvas. Every resident of Ewa, Honouliuli and Ewa Beach will have a chance to take part. You just turn on your porch light next Monday evening.

The light is a sign that you will be home to the mothers' team in your neighborhood. Turn it on!

Funds raised for the March of Dimes are used to fight polio. Some money is spent on research to find treatments and cures. Other money helps care for polio victims—142 on Oahu were paralyzed last year.

This year's campaign is headed in the various areas by village chairmen. In Varona Village, Mrs. Facundo Quintal and Mrs. Herbert Fujita are in charge. In "C" Village, Mrs. Yoshio Oshiro; Mill Village, Mrs. Harold Goto; Tenney Village, Mrs. Haruyuki Ogawa, Mrs. Hiroshi Kojima, Mrs. Robert Sueda, and Mrs. Jerry Lee; Renton Village and Pepper Row, Mrs. W. A. Mair; Filipino and Middle Villages, Mrs. Duke Paraz and Mrs. Donald Barcelo; Hospital and Lower Villages, Mrs. Richard Noda; Honouliuli and Ranch, Mrs. C. T. Kim; Ewa Beach, Mrs. Joe Kox.

General co-chairmen are Miss Sadako Kabutan and Mrs. Warren Gibson.

Not Our Fault -Til Now

A favorite gripe of folks living in Varona and "C" Villages has been the mauka side of the road over the bridge.

This wasn't paved before because the land title wasn't clear. We believe that the title will be cleared soon. If so, the strip between Mill Village and the Hongwanji Church will be paved sometime in the near future.

Facts For Ewa Boosters Club

Ewa is prone to brag about its accomplishments. Because it has so many fine things worth bragging about we'll list them here for you. You have had a part in these, so you can brag too.

Hawaii's first steam turbine mill drive began grinding our 1953 crop yesterday.

Hawaii's first industrial television system is making work easier for our cane cleaning plant operators.

Ewa's second modern housing project is underway in Fernandez Village. (See our next issue.)

Over half our permanent village streets are paved. More is to come.

The list will be continued on this page during the year ahead. These items and many more mean greater economy in production and more pleasant living. They help improve the economy of the territory. We can be proud.

New Hospital Lab Technician

Kimie Tarasawa is our new laboratory technician at the Ewa Hospital. She is the daughter of Mr. and Mrs. Heitaro Tarasawa of Mill Village. Kimie has been working temporarily on the job for several months. The American Society of Clinical Pathologists recently certified Kimie as Medical Technician. To make the grade, she had to pass a very tough examination.

MISS KIMIE TARASAWA...is the only person in Ewa who enjoys taking a test.

Hospital Notes

The flu epidemic is continuing as severely as it was two weeks ago. It seems advisable to repeat advice about what to do to prevent catching it or in case you get it.

Rest is important. Get eight hours of sleep if possible—if you are a poor sleeper, go to bed and rest anyway.

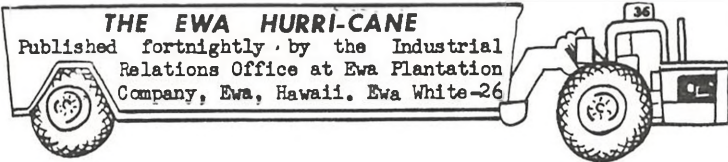

You should have a good breakfast to give you energy for your day's work; a substantial lunch especially if doing heavy work; and a well balanced dinner. You should have eggs, milk, meat, cheese, etc., to give you proteins; and at least two vegetables besides rice or potatoes. Butter, oleo, fats, cream and our own sugar (C&H) are excellent sources of energy. They should be taken regularly unless your doctor says no.

Complications may result from the flu or upper respiratory infections.

An inflamed ear is quite common. It is accompanied by pain or a sensation of fullness which makes you want to stick something into your ear to dig the wax out. This is very dangerous. The delicate lining of the ear may be scratched and an infection set in. Also, the eardrum may be punctured. This is very, very painful and dangerous. Come to the hospital and have your ears examined and cleaned out. If you just have to stick something in your ear, don't use anything smaller than your elbow.

Your nose may drain or run freely or it may become plugged. In blowing the nose, the common practice is to shut off one nostril while forcing the air down the other. This is wrong—both sides should be open so there is equal pressure on each side. If you close one side, back pressure may force material into the sinuses of the eustachian tube (between your ear and your nose).

If you should get a cold, report to the hospital immediately. Don't be surprised if you don't get penicillin as everyone seems to expect. This drug will not cure a cold and is used only for complications.

TELL 'EM

When a car speeds through your village, you probably get mad. Most people do but they don't do anything about it. Don't be bashful about calling someone down. You'll be adding to the safety of your children.

Get your neighbors interested, too. Make them safety-minded and set a good example yourself. If you know the speeding driver, talk to him. Make him see how he endangers the lives of children. If you don't know the speeder, give time, date and license number to our safety director, Chad Penhallow.

If more of us would do these things, we'd get some results.

REPORT 'EM

Have you noticed the two most recent posters on our bulletin boards? They're from the Better Business Bureau. The posters give advice--good advice. So does the B.B.B.

The Better Business Bureau is supported by many Oahu businesses. It has one main purpose--to see that you get fair and legal treatment from all businesses. Most businessmen know that one dishonest dealer can hurt the business of other dealers. The honest merchants join in the B.B.B. to get the facts on shady deals. If a law is broken, they try to have the culprit punished or to change his ways.

TRIA--is a group of television and radio dealers organized under the B.B.B. TRIA's one aim is to protect you. To join, a T.V. dealer must agree to sell only new equipment of the latest design. If he advertises a guarantee or service, he must be able to stand behind it. A guarantee is only as good as the man (or business) who makes it.

Protect yourself. Before you invest--investigate. If you are not sure about a deal, call the B.B.B. (phone 62155). The B.B.B. wants to know about fly-by-night T.V. salesmen and fake medicine peddlers. The B.B.B. wants to know about any deal that hurts honest business and its customers.

Government OK's New Herbicide

E.P.Co. Will Use Soon

Dupont's new pre-emergence weed killer, CMU, was approved by the government after much study.

Last February, Dupont asked the H.S.P.A. to send samples of soil and cane plants from test plots set up for CMU experiments. In July, a team of Dupont chemists came here for a full scale investigation into the possible carry-over of CMU in the soil in the cane and in the sugar itself. The University of Hawaii provided laboratory space. The H.S.P.A. scientists worked with the Dupont group in variety tests. The H.S.P.A. also gave Dupont a record of all CMU tests in cane fields.

CMU is a powerful killer of weeds before they come up. All plantations have been eager to get the government's okay on its use. It is used with great success on roadsides and under bridges to keep weeds down.

H.S.P.A. and plantation studies have found proper amounts

of CMU to be used.

Ewa will use CMU as soon as we can get all we need. Here are some CMU facts:

1. CMU is only a pre-emergence spray. It is no good for killing weeds. It works best on bare soil.
2. If used where weeds or grass are growing, CMU should be mixed with CADE.
3. Care must be used to get an even spread. Uneven applications result in poor weed control and possible damage to cane.
4. Too much CMU will stunt the early growth of cane. Experiments show that about five pounds per acre is safe and still give weed control.

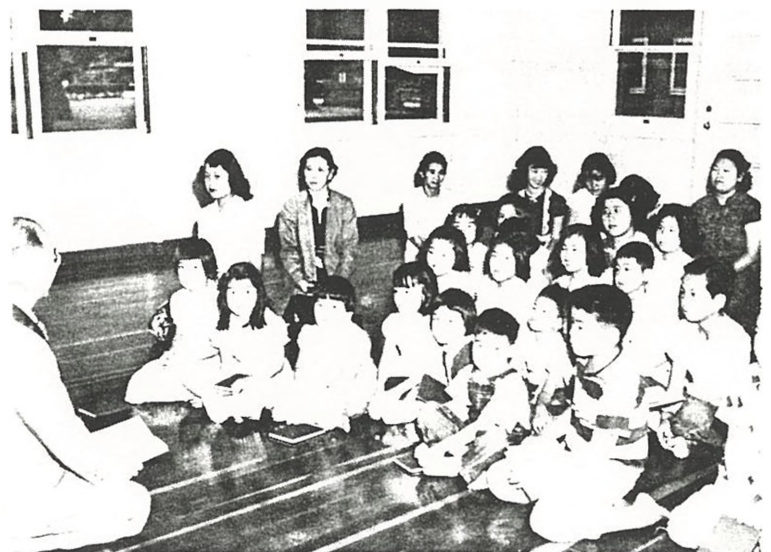

To err is human, but when you wear out the earser before you have used up the pencil, you are overdoing it.

--Cigar & Tobacco Journal

Charlie Nakamatsu and the celestial drum. Every year the Soto Mission sponsors Bon dances to the music of life and drums. These religious dances have become popular with nearly everyone in Hawaii. July 11 and 12 will be Bon dance time again at the Soto Mission. (Navy photo.)

THE STORY OF Ewa Soto Mission

Religious instruction classes are held on Saturday mornings. Reverend Ozawa teaches the children songs and prayers. They also have their own service.

By Nobuo Soma

The members of the Ewa Soto Mission today give thanks to the Lord Buddha as they look back to their humble start in 1923.

No Church

Under the leadership of Reverend Nakayama of Waipahu, the mission was formed, followed later by forming the Kyodan or congregation. Services were held monthly on a house-to-house basis as the few members had no benefit of a regular church.

Membership Grows

World War II interrupted services as the Rev. G. Okawa, then serving as minister, was interned on the Mainland. The end of hostilities saw the Rev. Okawa back and also an increase in membership, which brought a need for a larger place of worship. Fortunately, the Hawaiian-Chinese clubhouse was available and later the Union Hall.

Youth Group

In 1947, the Futaba Kai, forerunner of the present Soto Y.B.A., was formed with the members holding bi-weekly services and learning the art of making dolls, artificial flowers, kimonos, etc.

Holds Convention

1948 saw a movement spearheaded by Mr. Sadaichi Yamaguchi and Mr. Kelly Kiriu to form a Soto Y.B.A., with 16 young boys and girls as the first members. The Ewa Soto Y.B.A. is an integral unit of the United Oahu Soto Y.B.A. and also the Territorial Soto Y. B. A. Although young in years, Ewa in 1951 had the honor of holding the sixth Territorial Convention of the Soto Y.B.A. of Hawaii.

Builds Church

Increasing membership in both the Kyodan and Soto Y.B.A. saw a need for a place of worship of their own. In February, 1949, after groundbreaking ceremonies, work was begun on the present church and hall with members volunteering their services.

Amidst pomp and ceremony in October, 1949, the impressive new building was dedicated, with the members and honored guests and friends present.

Today, the members, firmly established in their new church as well as the community of Ewa, pray for Peace on Earth and the well being of their fellow men.

Oldest Sect

The Sotoshu is part of the Zenshu, probably the oldest Buddhist sect in Japan. The word, "zen" refers to quiet and tranquillity and contemplation. The sects in Japanese Buddhism do not differ primarily on doctrine but on their methods of approach. They are, in effect, different schools.

Reverend Ozawa came to Waipahu and Ewa a year ago. He had served 20 years with the people of Kauai. His predecessors were the Reverends Nakayama (founder of the Mission), Uejima, Mitsufusa and Okawa.

Members of the Kyodan (congregation) attend a service of prayers and sermon. They are very proud of their church building. Funds were raised within the church group and construction was done with voluntary labor.

At informal meetings, the Soto Y.B.A. group plans its activities. Here they're talking over a camping trip. Their program includes many outings and meetings for prayer and religious study.

Ewa School Notes

By Basilia Taala

The annual Ewa School benefit dance will be held on Saturday, February 7, 1953 from 9 p.m. to 1 a.m. at the Ewa gym.

The "Torchers" will furnish the music.

You may get your tickets from the students of Ewa School. Tickets are only a dollar.

Get your tickets now, while it's still early, so that you won't have anything to worry about when the event comes. Hurry, hurry!! Tickets will also be available at the gym.

Last Monday, January 12, 1953 the first P.T.A. meeting of 1953 was held. It began at 6:45 p.m. with the showing of the film, "Skyline Hike on the Mtur Trail." A business meeting followed.

We are all sorry to see three of our hard-working teachers go. Mrs. Takeuchi, Mrs. Herrst and Mr. Yoshimura will leave our campus in a short time.

The 9th grade boys and girls will be changing homerooms after the first semester ends. The 9-A boys and girls will have the homemaking building as their homeroom while the 9-B's will move to Room 27. This change was made because there were 47 boys in Room 27 while 30 girls occupied the homemaking building. They combined the boys and girls so the classes would be more equal.

A Differential Aptitude Test was given to the 9th graders. Mrs. Floy Gay managed to give all these tests.

The purpose of this aptitude test is to test the primary mental abilities. It is the policy to give this test to all high school seniors. It is optional in the 9th grade.

The result of this test will not affect report card grades. This test measures abilities, not achievement.

Barbecued Hamburgers

Here's a good one. Guaranteed to please the palate.

- 1 lb. Ground Beef
- 1 tblsp. Oil
- 1 Large Onion
- 1 Green Pepper
- 2 tsp. Sugar (C&H)
- 1 tsp. Dry Mustard
- 1 tsp. Vinegar
- 1 tsp. Salt
- 1 Bottle Catsup

Brown meat in oil until crumbly--not hard. Chop (very fine) onion and green pepper and mix with other items. Now add to the meat. Stir well, cover and cook slowly for 30 minutes. Serve on toasted buns.

500 Union Members To Vote Dividend

Credit Union members get to vote next week. At 4 pm Friday the Ewa FCU holds its annual meeting. Main item on the agenda will be the annual dividend. Next comes some refreshment for those attending followed by hot discussions of other FCU problems. Friday, January 23, 4 pm.

Best Buy-ERA Membership Card

The annual Ewa Recreation Association membership drive is on. For three dollars (\$3) your whole family gets membership. The price is tiny compared to the E.R.A.'s giant year-round program.

Summer Fun, the Christmas party, adult and children's classes, athletic leagues and lots more. Most of these items are free to members. On others, your card entitles you to special rates. Most of the events held in Ewa gym (except dances) are free to E.R.A. card carriers.

It's the best deal with the most "extras" thrown in. Get yours at the gym right away.

Welcome To Ewa

Ours is certainly a progressive, growing community. Three potential tax-payers decided to make Ewa their happy home.

Rosalina - daughter of Mr. and Mrs. Robustiano Lucena. Born January 5, 1953, 8 pounds.

Bryce - son of Mr. and Mrs. Rex Elliott. Born January 9, 1953, 9 pounds 13 ounces.

Anselmo - son of Mr. and Mrs. Anselmo Alonzo. Born January 12 1953, 7 pounds 5½ ounces.

Next Friday is the Credit Union Meeting. All members should be there. January 23, 4 pm.

MIDDLE VILLAGE SOCIAL CLUB OFFICERS. Manuel Coloma, Querino Casay, Faustino Ancheta, Teodorico Corpuz, Alfonso Coloma, Marcelino Pagdilao, Jesus Agapay, and Antonio Pagdilao. Mr. Alfonso Coloma is presently visiting his parents in the Philippines.

Middle Village Installs Officers At Party

The newly-elected officers of the Middle Village Social Club for 1953 were recently installed by Father Julian Fierens, of Ewa Immaculate Conception Church.

Teodorico Corpuz, president, and Faustino Ancheta, vice-president, lead the slate. Others taking office were: Marcelino Pagdilao, treasurer; Jesus Agapay, secretary-auditor; Querino Casay, advisor, and Manuel Coloma and Antonio Pagdilao, sergeant-at-arms.

In conjunction with the ceremonies a Christmas party for the children was held. They all received presents. In addition a program of entertainment and dancing followed.

Mistrees of Ceremonies at the party was Miss Margaret Corpuz.

Perfect Record Tops Junior Basketball

Tuesday night two of Ewa's junior league basketball teams were tied for lead spot. Kei Kokus and 20th Century Club each had six wins, no losses. They met last night to set the first round championship.

The Kei Kokus came out on top with a 37-25 tally. Every man contributed to the total. Harry Takahashi led with 9 points but Roy Higa marked up 11 points for the losers.

In the second game, the Pirates and Nisei squads also had a play-off--for 6th place.

The Niseis led at every quarter but the last one. The Pirates won 19-18. After the first period, the score was never more than 4 points apart. Missing five free tossers decided the game against the Niseis. Richard Supebedia and Willard Hashimoto both sunk 7 points worth.

JUNIOR LEAGUE STANDINGS

Team	Won	Lost	Pct.
Kei Kokus	7	0	1000
20th Century	6	1	857
"B" Village	4	2	666
Rainbows	4	2	666
Buccaneers	2	4	333
Pirates	2	5	286
Niseis	1	6	143
Ewa Beach	0	6	000

Kohala Was Here; We Lost

When Kohala sent its team over to play Ewa's O.P.A.A. champs, they caught us by surprise. Caught us with our score down. The sad results--43 to 26. In desperation, Ewa threw everything it had--17 men played during the game. Kohala only put 11 in (all they brought).

Saving Ewa from a worse fate was Richard Abe. He put 10 points in the hoop--a basket in each quarter and two free throws.

Kohala had a well-rounded team that shared honors all around. Nine men added to their total. The team was fast moving and quick on taking rebounds.

Ewa hasn't lost to Kohala since way back in the dark ages --1941.

1st Not 2nd

Last issue of the Ewa Hurri-Cane had a rare item--an error. We apologise to the Ewa OPAA baseball squad. They were the 1952 OPAA champs and not runners up.

Golf Play Sunday For Nakano Trophy

The Ewa Golf Club plays Sunday. On the table is Nanakuli realtor, Kenneth Nakano's trophy. It is an 18 hole medal play at Leilehua course, Wahiawa. Tee-off time is 11 am, January 18th.

FHA Feeds PTA No Casualties

By Alice Sato
The Future Homemakers of America, Ewa chapter, prepared dynamite to kill on Monday, January 12 for 23 P.T.A. officers, guests and members. They went out not half dead, but very much alive and smiling! After having the delicious, sensational meat-loaf, mashed potatoes, buttered peas, biscuits, vegetables, gelatin salad, apple pie and coffee that only the F.H.A.'ers have the formula for, who wouldn't have gone out smiling?

This was their first large project and it proved them very good cooks.

Pinboy Jobs Open

Good Pay. Convenient Hours. The E.R.A. bowling alleys need Pinboys. See "Punchbowl" Fuku-naga or Charles Aina at the gym.
