Hi All,

Sorry for the late notice. I will be doing 4 different workshops in February. Please send to appropriate faculty, staff and student help.

There is no online registration, please sign-in at workshop.

### Information Security Workshop

**When:** Monday, February 5, 2018, 9:00am to 10:00am and Thursday, February 8, 2018, 1:00pm to 2:00pm

**Where:** Naio 203 for February 5th and Naio 207 for February 8th

What should be encrypted? What is PII? Should we be concern with information on paper? If I don't have sensitive information should I worry about information security? In this handy session you'll be presented with general information about the policies/laws concerning the type of information KCC handles and safe practices to help prevent a breach or hack on our campus.

### Information Security Talk Story

**When:** Monday, February 5, 2018, 2:00pm to 3:00pm and Thursday, February 8, 2018, 10:00am to 11:00am

**Where:** Naio 203

Let's talk story. Share experiences that involves information security and learn from others. Bring up any concerns that involves Information Security on campus and hopefully I can answer them.

### Spirion Workshop (PC Users, Laptops will be provided)

**When:** Monday, February 12, 2018, 9:00am to 9:30am and Friday, February 16, 2018, 9:00am to 9:30am

**Where:** Naio 203

Learn how to use Spirion. Spirion is a program installed on all KCC machines and will allow you to search for PII (SSN, Credit Card etc...)

### Spirion Workshop (Mac Users, please bring your campus machine)

**When:** Monday, February 12, 2018, 9:30am to 10:00am and Friday, February 16, 2018, 9:30am to 10:00am

**Where:** Naio 203

Learn how to use Spirion. Spirion is a program installed on all KCC machines and will allow you to search for PII (

SSN,Credit Card etc...)

**VeraCrypt Workshop (PC Users, Laptops will be provided)**

**When:** Monday, February 12, 2018, 1:00pm to 1:30pm and Thursday, February 15, 2018, 10:00am to 10:30am

**Where:** Naio 203

Learn how to use VeraCrypt. VeraCrypt is a program installed on all KCC machines and will allow you to create an encrypted container to protect PII (sensitive information).

**VeraCrypt Workshop (Mac Users, please bring your campus machine)**

**When:** Monday, February 12, 2018, 1:30pm to 2:00pm and Thursdays, February 15, 2018, 10:30am to 11:00am

**Where:** Naio 203

Learn how to use VeraCrypt. VeraCrypt is a program installed on all KCC machines and will allow you to create an encrypted container to protect PII (sensitive information).
