

## The Truckers Say Mabuhay!...and

A spirit of good fellowship reigned as the Transportation "gang" got together last Friday evening at the Waimalu Chop Suey.

The banquet was sumptuous as were the liquid refreshments. But the highlight of the evening was the presentation of the "gang's" token of Aloha to Quirino--a handsome wrist watch.

(Pictured above is Quirino Wasay, all smiles, surrounded by his fellow truckers.)

\*\*\*\*\*

Quirino Wasay, a familiar sight at the wheel of Spray Truck No. 308, retired to a life of ease and comfort on October 1. His service with the plantation spanned 32 years and 8 months.

He came to Hawaii from the Philippines in 1918, but it was not until January, 1932 that he joined Ewa. He worked at various jobs in the Harvesting Division until April, 1948 when he transferred to the Transportation Division as a Truck Driver. He has been a Spray Truck Driver since September, 1948.

Quirino leaves for his homeland at the end of this month to make his home there. Aloha! Bon Voyage!

## Primary Election Tomorrow

Election booths will be open from 7:00 A.M. to 5:30 P.M. tomorrow. Thousands upon thousands of Hawaii's voters will march to the polls to exercise the greatest right of an American citizen - the right to vote for whomever you please to administer the affairs of your government.

Important as a man's right to vote is, he also has the freedom not to vote if he doesn't want to, or is too lazy or lacking in civic consciousness to do so. If he is not interested, does not want to take the time, or finds it inconvenient -- that's his business.

However, it is not so in some places, for instance in countries behind the "iron curtain." There, if you don't parade to the polls and cast a ballot for the pre-picked, one-party slate, you can expect to hear a knock on the door some night.

Here in the U.S.A., nothing will happen if you don't vote. You can sit the election out. And then sit up election night to see whom your neighbors elected. Afterwards you can even go on criticizing the government, in spite of the fact that you may not have had anything to do with electing the officials who run it.

SO---don't vote if you don't feel like it. Exercise your freedom to stay away from the polls.

BUT WEIGH THE CONSEQUENCES. Your one vote - your right to vote and have your vote counted - can mean a good government or a poor one. SO---if you care at all what kind of a government you are going to have, be sure to vote tomorrow for the candidates who, you believe, will give you a good government. JUST ONE VOTE DOESN'T COUNT? DON'T YOU BELIEVE IT!

## New Employees

Three of the 14 temporary hires in the Field Department were selected to become regular full-time employees of the plantation effective October 1. They are: Patrick Borge, Raymond Oshita and Suwan Raksilapa.

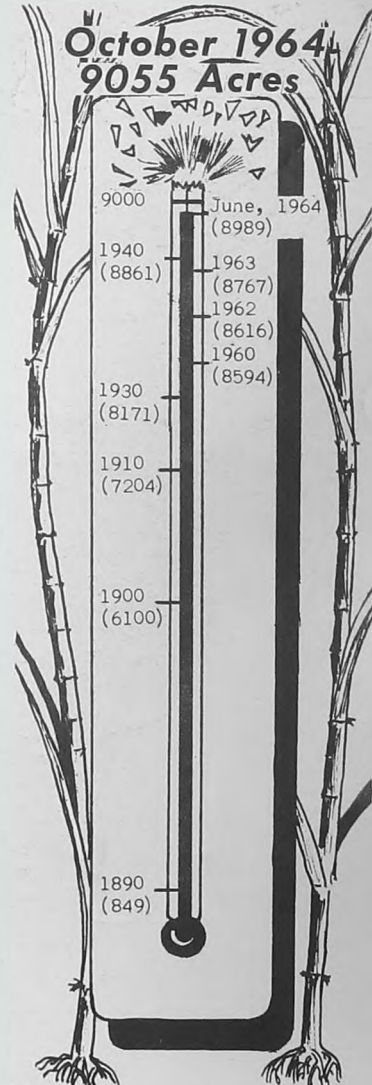

The others were terminated on September 30. Arrangements were made for their employment with Dole, W a h i a w a beginning October 1.

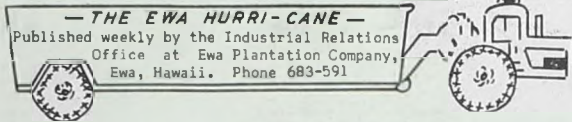

## Twilight of the 1964 Season

As the Hurricane went to press yesterday, the harvesting machines were still roaring and the mill wheels still rolling. There yet remained several acres of cane to take off and tons of juice to boil off into sugar.

The closing moments of the 1964 season proved rough and tough for the men and equipment in the field as well as in the mill. But by now the harvesting will have been finished, the last pound of sugar extracted, and the entire plantation prepared to tackle the heavy off-season work load.

## Fire Prevention Week...October 4-10

The fact sheet issued by the Board of Underwriters of Hawaii gives the following statistics:

1963 FIRE LOSSES	DEATHS	PROPERTY DESTROYED OR DAMAGED
United States	11,000	\$1,405,000,000
Honolulu	3	1,232,704

The fact sheet also cautions:

The combination matches-smoking and misuse of electricity account for 40 per cent of all fires of known origin; therefore, home fire prevention should start at these danger spots. The following precautions will reduce hazards:

- (1) Never smoke in bed! (2) Keep matches away from children. (3) Have plenty of ash trays. (4) Keep your house clear of rubbish. (5) Don't overload electrical outlets. (6) Don't run cords under rugs. (7) Check your home before going to bed, and (8) Have a fire escape plan--REHEARSE IT!

Electrical fires are less apt to occur if you follow these rules:

1. 15 ampere fuses are the safe size for most household circuits. Never tamper with them; never use oversize fuses.
2. Don't plug too many appliances into one outlet.
3. Look for the UL label on all electric cords and appliances you buy.
4. Don't let a "home handyman" tinker with electric cords, wiring or appliances. Such work should be done only by an electrician.
5. Don't string wires over hooks or around nails, or run them under rugs. A short circuit may result.

IN CASE OF FIRE...GET OUT OF THE HOUSE! CALL THE FIRE DEPARTMENT!

### EWA'S FIRE CALL.....68-1047

Stay on the line three minutes or more, repeating slowly the location of the fire. Those responding to the alarm will remove the receiver, say nothing, and listen carefully for the location of the fire.

To stop alarm ringing, remove receiver from telephone and replace.

If the alarm should be dialed in error, STAY ON THE LINE and report such to all who answer.
