NUMBER 30

Parents and Children Please Note!

At a recent meeting of the Company's Central Safety Committee, grave concern was expressed by the members over the flagrant disregard of safety by the youngsters who merrily continue to roller skate on village streets.

In spite of the warning that appeared in an earlier issue of this paper, this dangerous pastime continues unchecked. These youngsters not only pose an added traffic hazard to motorists, but invite broken limbs, and worse, risk their lives as well.

Parents should heed this warning and take stern measures toward stopping the youngsters from pursuing this dangerous "fun".

Much curiosity must have been aroused at the sight of the huge pipe line being installed in Field 72 along the Ft. Weaver Road the past few weeks. So - your Hurricane reporter asked ---

This is a temporary installation to test pump the drain pit there to find a new source of water for the thirsty fields in the Puuloa area.

Safe Riding is a Must

Here are 10 important rules for all bicycle riders to follow. Make these rules yours and your children's safe riding code.

One of the most dangerous practices observed among our youngsters riding bicycles is the speeding at intersections and completely ignoring stop signs. We all know what the outcome would be if a car happened to be passing by. They are our children and we love them dearly. For their continued good health let's make sure that they know the rules well.

1. Obey all stop signs and traffic signals.
2. Ride only on the right hand side of the street, as near to the curb as possible, but not on sidewalks.
3. Ride single file on busy or narrow streets. Never ride more than two abreast.
4. Don't carry another person on your bicycle - it obstructs vision, makes steering and balancing difficult.
5. Don't "hitch on" to trucks or cars. Never "stunt" or race in traffic.
6. Always dismount and walk your bicycle across busy streets.
7. Don't "weave" in and out of traffic. Avoid sudden turns or stops.
8. Be alert for suddenly opened doors when passing parked cars.
9. Stop and make sure sidewalks and streets are clear when coming out of alleys and driveways.
10. Be sure your bicycle has good brakes and a rear reflector.

Ewa's Oldtimers

The "oldtimer" of the week is ERROL B. McLEAN who has to his credit a total of 32 years and one month of service at Ewa.

Born in Nova Scotia, Canada, he completed his education there and started his automotive career as a mechanic for a Canadian firm. He was promoted to auto mechanic foreman in 1927. However, in 1928, he succumbed to the lure of the tropic, and came to Hawaii.

Following a period of employment with Schuman Motors as service manager, he began his career at Ewa on June 15, 1931. Starting as a garage foreman he was promoted in 1935 to Motorized Equipment Engineer the position he has served with distinction through the past years.

A member of the Society of Automotive Engineers, he recently received his Silver (25-year) membership card.

Mr. and Mrs. McLean make their home in Aiea.
