

## Achieving The Dream

Achieving the Dream is a multiyear national initiative to help more community college students succeed. The initiative is particularly concerned about student groups that have traditionally faced the most significant barriers to success, including low-income students and students of color. Achieving the Dream emphasizes the use of data to drive change, and is especially interested in closing achievement gaps. As a national multiyear effort involving some of the best community colleges across the country, the initiative focuses attention and resources directly on those practices that will both enable the UH Community College (UHCC) System to meet its stated goals by developing institutional practices that enhance students' success.
