THE LEGEND OF THE YUM YUM TREE

The legend of the Yum Yum Tree is as old as the Islands. As the story goes, there was once a magical tree that bore fruits and berries of every size and description. The tree yielded its tempting natural treasures in such abundance that it could provide food of remarkable goodness to all who knew the secret of its existence.

Then one day, a visitor to the Islands made a gift of a big 9" tin pan to one who knew of the magical tree. Inspired to great culinary achievement by the tree's sensational fruits, the tin's new owner created the world's very first pie. Overflowing with marvelous ingredients, and cooked with great care, the pie elicited an echoed response from all who sampled it... "YUM!...YUM!...YUM! Well, the rest is history and the Yum Yum Tree (as it came to be known) has since been synonymous with the finest in carefully prepared food in great abundance.

At the Yum Yum Tree Restaurant we still make big 9" pies that are just as legendary as that very first one, and our home-style cooking just couldn't be more inspired. In fact, some people think we know the location of that magical tree to this very day. It could be the key to our delicious food and "Yummy" pies... but then who believes in legends?

We gladly accept Visa, Master Card, Carte Blanche, American Express and Diners Club.
