**Lawmakers Visit Ewa**

Seven members of the State's House of Representatives paid a visit to Ewa on Thursday last week to see for themselves the valiant effort being put forth by a sugar plantation to maintain its place in today's fiercely competitive business world. They were especially interested in Ewa's "akama'i" land use -- the acres upon acres of diversified crops growing in virtually soil-less coral patches.

**HEED WARNING SIGNS**

NOTICE  
KEEP OUT OF THIS RESERVOIR  
**NO FISHING**

...And NO SWIMMING EITHER!!!

Fun is fun and boys will be boys, but when pranks go beyond the bounds of innocence - fun ends, and vandalism reaps its ugly head!

Irrigation Superintendent Harry Duncan says that there have altogether been too many cases of tampering with and breaking of the plantation's irrigation facilities. Gates in ditches and flumes have often been found damaged and irrigation water diverted. These acts of vandalism not only mean money wasted but rise havoc with the irrigation operation itself.

A group of teen-agers was seen recently at one of the reservoirs cooking a meal on a fire built on the banks. This could easily have caused a disastrous cane fire! Also "NO SWIMMING" and "NO FISHING" signs are flagrantly disregarded which again could result in disaster to the trespasser and heartbreak to the family -- drowning!

Warning signs are posted wherever danger lurks, wherever the plantation deems best that people, especially children, keep away. Yet these warnings are being disregarded to the point where something must be done to safeguard the plantation's property and, at the same time, the well-being of the thoughtless trespassers who continue to ignore these warnings. So -- notice is served that vandals, mischief makers and trespassers will answer to the law from now on.

Now that summer vacation is here, the young adventurous souls finding time hanging heavy on their hands, may cast about for fun and excitement. The youngsters should be sternly advised against wandering where they should not be. All efforts should be made to direct this energy and imagination toward worthwhile activities divided between the home and the community's recreation area.

Let's make summer vacation, 1965, a trouble-free period for Ewa's youngsters -- and, of course, for the parents and plantation too.
