Registration to Selection of Academic and Career Pathway

UHCC system’s mission for student success is to organize the seven community colleges around a cohesive and unified agenda to maximize and scale efforts for student success. In order for the UHCC system to achieve its mission they have committed to building a coherent state strategy using a single framework for student success.

Thus, in Summer 2016, the UHCC system adopted the Student Success Pathway (SSP) model.

The SSP model

integrates academic, student affairs, and administrative services together in a coherent and intentional system of college experiences that match a student’s interest and goals, and better prepares them for success.

The SSP model is based on

intentionally designed, clear and structured educational experiences, that guide students from their very first connection with our College to their life beyond Kapi‘olani CC.

The SSP model is

is not another reform in a long line of reforms, but rather a framework that helps unify a variety of reforms.

The SSP framework

pays attention to the entire student experience, rather than to just one segment

of it.

The Process Includes

Students'

academic, career, and end goals in mind

Learning and teaching

approaches to ensure student success

It reveals the resources (i.e., people, funding, tools, technology, etc.) that are needed and should be leveraged and maximized to support student success.

SSP is an integrated, institution-wide approach to student success based on research supported by nationally recognized organizations such as Community College Research Center (CCRC), American Association of Community College (AACC), Achieving the Dream (ATD), Complete College America (CCA), Jobs for the Future (JFF) and Completion by Design (CBD).

Each campus was asked to customize the **SSP Model** to the students they serve.

KapCC’s model consists of six phases that provides benchmarks or pivot points in students’ college journey where they need the most supports to succeed.

Connect

Students **CONNECT** with KapCC through its vibrant campus community, indigenous academic and cultural excellence, comprehensive programs and support services, and its sustainable, safe and accessible learning environment.

Prepare

Each student is carefully evaluated and matched with a unique profile of college and career readiness. This personal assessment assures that the student is well **PREPARED** for the academic journey ahead.

Engage

Students actively **ENGAGE** with the faculty, staff, administration, fellow students, and the greater community to enrich academic, cultural and career oriented experiences.

Learn

Students take ownership of their own **LEARN**ing through unique personal and experiential choices made throughout their academic journey. Each journey represents a successful completion of various educational components.

Achieve

Students are prepared to **ACHIEVE** their academic and career goals by following a clear and balanced trajectory for a bright, productive future.

Thrive

Students complete their KapCC journey with a successful and well rounded global awareness, preparing them to **THRIVE** in the workforce, academia, Hawaii and the World beyond.

The Student Success Pathway & the College’s Strategic Plan

KapCC’s commitment to student success is evident in the College’s Strategic Plan. Every measure and outcome in the strategic plan is aligned with one or more of the Student Success Pathway Phases. In addition, all departments, units, and authorized governance organizations (AGOs) are completing a Student Success Pathways template that delineates how each of these entities are contributing to student success and how their contributions align with the College’s Strategic Plan.

Department/Unit Faculty & Staff

At the grassroots level, faculty and staff are working together to promote and foster student success within their units and departments. Each department and unit is responsible for working with their Vice Chancellors and Deans to track their department/unit’s progress. Updates are provided regularly at the Vice Chancellor Advisory Council meetings, which occur monthly.

Student Success Council (SSC)

At the campus level, the **Student Success Council** consists of a chair, six

executive members), and numerous faculty, staff, and students from across the campus. The members of the Council looks at how student success can improved at the campus level across each of the Student Success Pathway phases and participates in working toward those improvements, as well as makes recommendations to the Chancellor for improvements. The SSC meets monthly.

Overview | Mission & Vision

Authorized Governance Organizations (AGOs)

At the campus level, each of the College’s Authorized Governance Organizations (AGOs) – Kalāualani Council, Student Congress, Staff Council – also work to advancing student success campus wide by advising the campus on: (a) Native Hawaiian student success; (b) what students need to be successful at KapCC; and (c) on the significant contributions that every staff member makes to the Student Success Pathways. The AGOs meet monthly.

Faculty Senate | Kalāualani | Student Congress | Staff Council

Administrative Staff Student Success Advisory Team

At the administration level, the Administrative Staff Student Success Advisory Team, which includes the Vice Chancellors, the Executive Assistant to the Chancellor, the Deans, and the Student Affairs Coordinator, supports the Student Success Coordinator in implementing the Student Success Pathways and in monitoring its progress and implementation campus wide. This team meets twice a month. The College’s Office for Institutional Effectiveness (OFIE), and Marketing & Communication team are also consulted on a regular basis.

Chancellor’s Advisory Council (CAC) Student Success Workgroup

At the broader institutional level, the **Chancellor’s Advisory Council (CAC) Student Success Workgroup** examines ways our institution’s administrative functions and operations (i.e., resource allocations, integrated planning, comprehensive program reviews, ARPDs, etc.) can be improved and aligned with the Student Success Pathways. Workgroup members also discuss national game changers for student success and address directives/tasks from the UHCC System Student Success Council. This work group will then make institution and system-wide recommendations for student success to the Chancellor. This Key faculty, staff, students, and administrators are members of this workgroup.

Charter Guidelines

UHCC System Student Success Council

At the system level, the **University of Hawai‘i’s Community Colleges System Student Success Council** was established in Fall 2014 to provide leadership that will create a culture of change at all seven Hawai’i community colleges based on student success best practices nationally and locally; and engages in an ongoing effort to increase student completion rates. The Council meets at least twice a year and includes faculty, staff, students, and administrators from across the UHCC system. KapCC has a 10-member team that serves on this Council
