

The
Koko Marina
Wharf

In early times, a wharf was known as a gathering place for the local people. All anticipated the arrival of the fishing boats so they could bargain for the fresh catch of the day.

As time went on, the wharf evolved into not only a fish market but also a meeting place—a social event.

The Koko Marina Wharf takes pride in preserving this tradition. Now, fishing boats arrive from fishing off the shores of the Islands, supplying the finest fresh fish from our local waters.

When our local people gather at the waterfront, *The Koko Marina Wharf* goes one step beyond tradition, offering to seafarers and landlubbers a restaurant, specializing in admirable service and the preparation of favorite seafood, fresh fish and hearty cuts of beef.

The beauty of *The Koko Marina Wharf* is enhanced by our unique decor. It features the original props from the ship used in the film "Mutiny on the Bounty."

As our guest, we invite you to experience a piece of history.

Salad Bar

The Koko Marina Wharf invites you to help yourself to our bountiful selection of salads, soups and finger sandwiches.

3.95
