

### Assignment 3

Refer to the following to answer the questions in this exercise:

1. The Library of Congress Name Authority File (LCNAF), accessible via the Connexion client or browser
2. *Understanding MARC Authority Records: Machine-Readable Cataloging* (<http://www.loc.gov/marc/uma/index.html>)
3. OCLC authorities guidelines at <http://www.oclc.org/support/documentation/worldcat/authorities/userguide/default.htm>
4. MARC authority format. Freely available via WWW at <http://www.loc.gov/marc/authority/>
5. Session 3 handouts and your session 3 notes.

You should be able to answer all these questions by referring to authority records in the LC/NAF authority file. You should not need to cite any other resources to answer these questions.

In your answer to each question, cite specific fields and subfields within the authority record(s) that led to your conclusions.

(If you are curious about why an person or corporate body's authorized access point was chosen as such, or constructed as such, you are of course welcome to consult the rules and PSeS in RDA chapters 8, 9, and 11, but that is not a requirement of this week's assignment.)

Please submit your answers typed and double-spaced in class on February 5.
