Super Tuscan wines are wines from the Tuscany area of Italy that are not necessarily made according to Italian laws and tradition. As a result, they do not qualify for certain categories regulated by Italian wine laws, such as Denominazione di origine controllata (DOC) and Denominazione di origine controllata e garantita (DOCG).

Although they do not meet the government approved standards, it is not an indication of poor or inferior wines. On the contrary: They are exciting new wines produced by the regions most prestigious growers that have gained international recognition and acclaim. Thus the name...

SUPER TUSCAN.
