

Starfish Info Session

01 May 2017 / 11:00 AM / Lama Library, Room 116

ATTENDEES

Hannah Aldridge (Kapo'oloku)

Keisha Nakamura (Ka Pohaku Kihi Pa'a)

Trude Pang (BLT)

Tony Yi (BLT)

Calvin Tan (BLT)

Virginia Yoshida (Study Hub)

AGENDA

- Justin Toombs (Educational Specialist, UHCC) & Teri Mitchell (Early Alert Coordinator, KCC) will present an informational session on Starfish/MySuccess system in order to share various features related to tutoring services.

NOTES

- Instructors can make referrals to students for different services, including tutoring (which includes brief descriptions of each service and pertinent info). These referrals can be personalized with notes and student's name.
- Starfish/My Success conducts surveys of progress with instructors at checkpoints throughout the semester. Once instructor rates a student's progress, resources can be added into comment box about campus support resources which relate to the specific course.
- When students log in, they can see referrals via campus resource links on dashboard if our campus chooses to list our tutoring services/other campus support resources.
- Students can schedule appointments with tutors online and will receive automatically a confirmation reminder.

- Students can also set up group sessions with tutor appointment.
- Calendar with reminder for tutoring appointment can be linked to Google and all other calendars via iCal.
- Lots of possibilities! What features are helpful to our students? What info do we want to add for our students to see/use? How does our campus want to use Starfish/My Success in general? Or for tutoring services?
